Any person making or intending to make an offer of the Securities may only do so in circumstances in which no obligation arises for the Issuer or any Manager to publish a prospectus pursuant to Article 3 of the Prospectus Directive or to supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer.

None of the Issuer, the Guarantor or any Manager has authorised, nor do they authorise, the making of any offer of Securities in any other circumstances.

PART A - CONTRACTUAL TERMS

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions set forth in the Base Prospectus dated 3 June 2019, each Supplement to the Base Prospectus published and approved on or before the date of these Final Terms (copies of which are available as described below) and any other Supplement to the Base Prospectus which may have been published and approved before the issue of any additional amount of Securities (the "**Supplements**") (provided that to the extent any such Supplement (i) is published and approved after the date of these Final Terms and (ii) provide for any change to the Conditions of the Securities such changes shall have no effect with respect to the Conditions of the Securities to which these Final Terms relate) which together constitute a base prospectus for the purposes of Directive 2003/71/EC (as amended and superseded, the "**Prospectus Directive**") (the "**Base Prospectus**"). The Base Prospectus has been passported into Italy in compliance with Article 18 of the Prospectus Directive. This document constitutes the Final Terms of the Securities described herein for the purposes of Article 5.4 of the Prospectus Directive and must be read in conjunction with the Base Prospectus.

Full information on BNP Paribas Issuance B.V. (the "**Issuer**") and BNP Paribas (the "**Guarantor**") and the offer of the Securities is only available on the basis of the combination of these Final Terms and the Base Prospectus. A summary of the Securities (which comprises the Summary in the Base Prospectus as amended to reflect the provisions of these Final Terms) is annexed to these Final Terms. **The Base Prospectus, any Supplement(s) to the Base Prospectus and these Final Terms are available for viewing on the following website: investimenti.bnpparibas.it and copies may be obtained free of charge at the specified offices of the Security Agents. The Base Prospectus and the Supplement(s) to the Base Prospectus will also be available on the AMF website www.amf-france.org.**

References herein to numbered Conditions are to the terms and conditions of the relevant series of Securities and words and expressions defined in such terms and conditions shall bear the same meaning in these Final Terms in so far as they relate to such series of Securities, save as where otherwise expressly provided.

These Final Terms relate to the series of Securities as set out in "Specific Provisions for each Series" below. References herein to "**Securities**" shall be deemed to be references to the relevant Securities that are the subject of these Final Terms and references to "**Security**" shall be construed accordingly.

PART B - OTHER INFORMATION

1. Listing and Admission to trading - De listing

Application will be made for the Securities to be admitted to trading on the Multilateral Trading Facility of securitised derivatives financial instruments organised and managed by Borsa Italiana S.p.A. (the "**SeDeX MTF**").

2. Ratings

The Securities have not been rated.

The rating of the Issuer is A+ from Standard and Poor's.

The rating of the Guarantor is Aa3 from Moody's and A+ from Standard and Poor's.

As defined by Moody's, an "Aa" rating means that the obligations of the Issuer and the Guarantor under the Programme are judged to be upper-medium grade and are subject to low credit risk. Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aaa through Caa. The modifier 3 indicates a ranking in the lower end of that generic rating category.

As defined by Standard & Poor's, an obligation rated 'A' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the relevant Issuer and Guarantor's capacity to meet its financial commitment on the obligation is still strong. The addition of a plus (+) or minus (-) sign shows relative standing within the major rating category.

Moody's and Standard & Poor's are established in the European Union and are registered under Regulation (EC) No. 1060/2009 (as amended).

3. Interests of Natural and Legal Persons Involved in the Issue

Save as described above and discussed in "*Risks*" section in the Base Prospectus, so far as the Issuer is aware, no person involved in the issue of the Securities has an interest material to the issue.

4. Performance of Underlying/Formula/Other Variable and Other Information concerning the Underlying Reference

See Base Prospectus for an explanation of effect on value of Investment and associated risks in investing in Securities.

Information on each Share shall be available on the relevant Share Company website as set out in "Specific Provisions for each Series" in Part A.

Past and further performances of each Share are available on the relevant Exchange website as set out in "Specific Provisions for each Series" in Part A and the volatility of each Share as well as the Conversion Rate may be obtained from the Calculation Agent by emailing investimenti@bnpparibas.com.

The Issuer does not intend to provide post-issuance information.

SHARE DISCLAIMER

ISSUE SPECIFIC SUMMARY IN RELATION TO THIS BASE PROSPECTUS

Summaries are made up of disclosure requirements known as "Elements". These Elements are numbered in Sections A - E (A.1 - E.7). This Summary contains all the Elements required to be included in a summary for this type of Securities, Issuer and Guarantor. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements. Even though an Element may be required to be inserted in the summary because of the type of Securities, Issuer and Guarantor(s), it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element should be included in the summary explaining why it is not applicable.

Section A - Introduction and warnings

Element	Title	
A.1	Warning that the summary should be read as an introduction and provision as to claims	● **This summary should be read as an introduction to the Base Prospectus and the applicable Final Terms. In this summary, unless otherwise specified and except as used in the first paragraph of Element D.3, "Base Prospectus" means the Base Prospectus of BNPP B.V. and BNPP dated 3 June 2019 as supplemented from time to time under the Note, Warrant and Certificate Programme of BNPP B.V., BNPP and BNP Paribas Fortis Funding. In the first paragraph of Element D.3, "Base Prospectus" means the Base Prospectus of BNPP B.V. and BNPP dated 3 June 2019 under the Note, Warrant and Certificate Programme of BNPP B.V., BNPP and BNP Paribas Fortis Funding.** ● **Any decision to invest in any Securities should be based on a consideration of the Base Prospectus as a whole, including any documents incorporated by reference and the applicable Final Terms.** ● **Where a claim relating to information contained in the Base Prospectus and the applicable Final Terms is brought before a court in a Member State of the European Economic Area, the plaintiff may, under the national legislation of the Member State where the claim is brought, be required to bear the costs of translating the Base Prospectus and the applicable Final Terms before the legal proceedings are initiated.** ● **Civil liability in any such Member State attaches to the Issuer or the Guarantor (if any) solely on the basis of this summary, including any translation hereof, but only if it is misleading, inaccurate or inconsistent when read together with the other parts of the Base Prospectus and the applicable Final Terms or, following the implementation of the relevant provisions of Directive 2010/73/EU in the relevant Member State, it does not provide, when read together with the other parts of the Base Prospectus and the applicable Final Terms, key information (as defined in Article 2.1(s) of the Prospectus Directive) in order to aid investors when considering whether to invest in the Securities.**
A.2	Consent as to use the Base Prospectus, period of validity and other conditions attached	Not applicable. The Issuer intends to publish advertisement in Italy referring to the Securities and the admission to trading of the Securities on SeDeX MTF, which may be qualified as a public offer of Securities in Italy under Italian law and this Issue Specific Summary is prepared for this purpose. No Offer Period is envisaged.

B.19/ B.4b	Trend information	***Macroeconomic environment*** Macroeconomic and market conditions affect BNPP's results. The nature of BNPP's business makes it particularly sensitive to macroeconomic and market conditions in Europe. In 2018, global growth remained healthy at around 3.7% (according to the IMF), reflecting a stabilised growth rate in advanced economies (+2.4% after +2.3% in 2017) and in emerging economies (+4.6% after +4.7% in 2017). Since the economy was at the peak of its cycle in large developed countries, central banks continued to tighten accommodating monetary policy or planned to taper it. With inflation levels still moderate, however, central banks were able to manage this transition gradually, thereby limiting the risks of a marked downturn in economic activity. Thus, the IMF expects the global growth rate experienced over the last two years to continue in 2019 (+3.5%) despite the slight slowdown expected in advanced economies. In this context, the following two risk categories can be identified:

Element	Title	
		Risks of financial instability due to the conduct of monetary policies Two risks should be emphasised: a sharp increase in interest rates and the current very accommodating monetary policy being maintained for too long. On the one hand, the continued tightening of monetary policy in the United States (which started in 2015) and the less-accommodating monetary policy in the euro zone (reduction in assets purchases started in January 2018, with an end in December 2018) involve risks of financial turbulence and economic slowdown more pronounced than expected. The risk of an inadequately controlled rise in long-term interest rates may in particular be emphasised, under the scenario of an unexpected increase in inflation or an unanticipated tightening of monetary policies. If this risk materialises, it could have negative consequences on the asset markets, particularly those for which risk premiums are extremely low compared to their historic average, following a decade of accommodating monetary policies (credit to non-investment grade corporates or countries, certain sectors of the equity and bond markets, etc.) as well as on certain interest rate-sensitive sectors. On the other hand, despite the upturn since mid-2016, interest rates remain low, which may continue to encourage excessive risk-taking among some players in the financial systemmarket participants: increased lengthening maturities of financings and assets held, less stringent credit policy for granting loans, and an increase in leveraged financings. Some players of these participants (insurance companies, pension funds, asset managers, etc.) entail have an increasingly systemic dimension and in the event of market turbulence (linked for instance example to a sudden sharp rise in interest rates and/or a sharp price correction) they may decide could be brought to unwind large positions in a relatively weak market liquidity. *Systemic risks related to increased debt* Macro-economically, the impact of an interest rate increase could be significant for countries with high public and/or private debt-to-GDP. This is particularly the case for certain European countries (in particular Greece, Italy, and Portugal), which are posting public debt-to-GDP ratios often above 100% but also for emerging countries. Between 2008 and 2018, the latter recorded a marked increase in their debt, including foreign currency debt owed to foreign creditors. The private sector was the main source of the increase in this debt, but also the public sector to a lesser extent, particularly in Africa. These countries are particularly vulnerable to the prospect of a tightening in monetary policies in the advanced economies. Capital outflows could weigh on exchange rates, increase the costs of servicing that debt, import inflation, and cause the emerging countries' central banks to tighten their credit conditions. This would bring about a reduction in forecast economic growth, possible downgrades of sovereign ratings, and an increase in risks for the banks. While the exposure of the BNP Paribas Group to emerging countries is limited, the vulnerability of these economies may generate disruptions in the global financial system that could affect the Group and potentially alter its results. It should be noted that debt-related risk could materialise, not only in the event of a sharp rise in interest rates, but also with any negative growth shocks. ***Laws and regulations applicable to financial institutions*** Recent and future changes in the laws and regulations applicable to financial institutions may have a significant impact on BNPP. Measures that were recently adopted or which are (or whose application measures are) still in draft format, that have or are likely to have an impact on BNPP notably include: – regulations governing capital: the Capital Requirements Directive IV ("**CRD 4**")/the Capital Requirements Regulation ("**CRR**"), the international standard for total-loss-absorbing capacity ("**TLAC**") and BNPP's designation as a financial institution that is of systemic importance by the Financial Stability Board;

		– the structural reforms comprising the French banking law of 26 July 2013 requiring that banks create subsidiaries for or segregate "speculative" proprietary operations from their traditional retail banking activities, the "Volcker rule" in the US which restricts proprietary transactions, sponsorship and investment in private equity funds and hedge funds by US and foreign banks; – the European Single Supervisory Mechanism and the ordinance of 6 November 2014; – the Directive of 16 April 2014 related to deposit guarantee systems and its delegation and implementing Decrees, the Directive of 15 May 2014 establishing a Bank Recovery and Resolution framework, the Single Resolution Mechanism establishing the Single Resolution Council and the Single Resolution Fund; – the Final Rule by the US Federal Reserve imposing tighter prudential rules on the US transactions of large foreign banks, notably the obligation to create a separate intermediary holding company in the US (capitalised and subject to regulation) to house their US subsidiaries; – the new rules for the regulation of over-the-counter derivative activities pursuant to Title VII of the Dodd-Frank Wall Street Reform and Consumer Protection Act, notably margin requirements for uncleared derivative products and the derivatives of securities traded by swap dealers, major swap participants, security-based swap dealers and major security-based swap participants, and the rules of the US Securities and Exchange Commission which require the registration of banks and major swap participants active on derivatives markets as well as transparency and reporting on derivative transactions; – the new Markets in Financial Instruments Directive ("**MiFID II**") and Markets in Financial Instruments Regulation ("**MiFIR**"), and European regulations governing the clearing of certain over-the-counter derivative products by centralised counterparties and the disclosure of securities financing transactions to centralised bodies. – the General Data Protection Regulation ("**GDPR**") came into force on 25 May 2018. This regulation aims to move the European data confidentiality environment forward and improve personal data protection within the European Union. Businesses run the risk of severe penalties if they do not comply with the standards set by the GDPR. This Regulation applies to all banks providing services to European citizens; and – the finalisation of Basel 3 published by the Basel committee in December 2017, introducing a revision to the measurement of credit risk, operational risk and credit valuation adjustment ("**CVA**") risk for the calculation of risk-weighted assets. These measures are expected to come into effect in January 2022 and will be subject to an output floor (based on standardised approaches), which will be gradually applied as of 2022 and reach its final level in 2027. Moreover, in this tougher regulatory context, the risk of non-compliance with existing laws and regulations, in particular those relating to the protection of the interests of customers and personal data, is a significant risk for the banking industry, potentially resulting in significant losses and fines. In addition to its compliance system, which specifically covers this type of risk, the BNP Paribas Group places the interest of its customers, and more broadly that of its stakeholders, at the heart of its values. Thus, the code of conduct adopted by the BNP Paribas Group in 2016 sets out detailed values and rules of conduct in this area. ***Cyber security and technology risk*** BNPP's ability to do business is intrinsically tied to the fluidity of electronic transactions

Element	Title	
		as well as the protection and security of information and technology assets. The technological change is accelerating with the digital transformation and the resulting increase in the number of communications circuits, proliferation in data sources, growing process automation, and greater use of electronic banking transactions. The progress and acceleration of technological change are giving cybercriminals new options for altering, stealing, and disclosing data. The number of attacks is increasing, with a greater reach and sophistication in all sectors, including financial services. The outsourcing of a growing number of processes also exposes the Group to structural cyber security and technology risks leading to the appearance of potential attack vectors that cybercriminals can exploit. Accordingly, the BNP Paribas Group has a second line of defence within the Risk Function dedicated to managing technical and cyber security risks. Thus, operational standards are regularly adapted to support the Bank's digital evolution and innovation while managing existing and emerging threats (such as cyber-crime, espionage, etc.).
B.19/B.5	Description of the Group	BNPP is a European leading provider of banking and financial services and has four domestic retail banking markets in Europe, namely in France, Belgium, Italy and Luxembourg. Statements of no significant or material adverse change

See Element B.12 above in the case of the BNPP Group.

There has been no material adverse change in the prospects of BNPP or the BNPP Group since 31 December 2018 (being the end of the last financial period for which audited financial statements have been published).

B.19/ B.13	Events impacting the Guarantor's solvency	Not applicable, to the best of the Guarantor's knowledge, there have not been any recent events which are to a material extent relevant to the evaluation of the Guarantor's solvency since 30 September 2019.
B.19/ B.14	Dependence upon other Group entities	Subject to the following paragraph, BNPP is not dependent upon other members of the BNPP Group. In April 2004, BNP Paribas SA began outsourcing IT Infrastructure Management Services to the BNP Paribas Partners for Innovation ("**BP²I**") joint venture set up with IBM France at the end of 2003. BP²I provides IT Infrastructure Management Services for BNP Paribas SA and several BNP Paribas subsidiaries in France (including BNP Paribas Personal Finance, BP2S, and BNP Paribas Cardif), Switzerland and Italy. The contractual arrangement with IBM France has been successively extended from year to year until the end of 2021, and will then be extended for a period of 5 years (i.e. to

Element	Title	
		the end of 2026) in particular to integrate the IBM cloud services. BP²I is under the operational control of IBM France. BNP Paribas has a strong influence over this entity, which is 50/50 owned with IBM France. The BNP Paribas staff made available to BP²I make up half of that entity's permanent staff. Its buildings and processing centres are the property of the BNPP Group, and the governance in place provides BNP Paribas with the contractual right to monitor the entity and bring it back into the BNPP Group if necessary. IBM Luxembourg is responsible for infrastructure and data production services for some of the BNP Paribas Luxembourg entities. BancWest's data processing operations are outsourced to Fidelity Information Services. Cofinoga France's data processing operation is outsourced to IBM Services. See Element B.5 above.

B.19/ B.15	Principal activities	BNP Paribas holds key positions in its two main businesses:
		
		● **Retail Banking and Services,** which includes:
		  ● Domestic Markets, comprising:
		  ● French Retail Banking (FRB),
		  ● BNL banca commerciale (BNL bc), Italian retail banking,
		  ● Belgian Retail Banking (BRB),
		  ● Other Domestic Markets activities, including Luxembourg Retail Banking (LRB);
		  ● International Financial Services, comprising:
		  ● Europe-Mediterranean,
		  ● BancWest,
		  ● Personal Finance,
		  ● Insurance,
		  ● Wealth and Asset Management;
		● **Corporate and Institutional Banking (CIB),** which includes:
		  ● Corporate Banking,
		  ● Global Markets,
		  ● Securities Services.

B.19/ B.16	Controlling shareholders	None of the existing shareholders controls, either directly or indirectly, BNPP. As at 31 December 2018, the main shareholders were Société Fédérale de Participations et d'Investissement ("**SFPI**") a public-interest *société anonyme* (public limited company) acting on behalf of the Belgian government holding 7.7% of the share capital, BlackRock Inc. holding 5.1% of the share capital and Grand Duchy of Luxembourg holding 1.0% of the share capital. To BNPP's knowledge, no shareholder other than SFPI and BlackRock Inc. owns more than 5% of its capital or voting rights.
B.19/ B.17	Solicited credit ratings	BNPP's long term credit ratings are A+ with a stable outlook (S&P Global Ratings Europe Limited), Aa3 with a stable outlook (Moody's Investors Service Ltd.) and AA- with a stable outlook (Fitch France S.A.S.) and AA (low) with a stable outlook (DBRS Limited) and BNPP's short-term credit ratings are A-1 (S&P Global Ratings Europe Limited), P-1 (Moody's Investors Service Ltd.), F1+ (Fitch France S.A.S.) and R-1 (middle) (DBRS Limited). A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

		obligations arising out of or in connection with the Securities, the English Law Agency Agreement (as amended or supplemented from time to time) and the Guarantee in respect of the Securities will be governed by and shall be construed in accordance with English law.
C.9	Interest/Redemption	***Interest*** The Securities do not bear or pay interest. ***Redemption*** Unless previously redeemed or cancelled, each Security will be redeemed on the Redemption Date as set out in the table in Element C.18 below. The Securities may be redeemed early at the option of the Issuer at the Optional Redemption Amount equal to : Call Payout 2210 The Certificates may also be redeemed early on occurrence of an Additional Disruption Event, an Optional Additional Disruption Event, an Extraordinary Event, a Potential Adjustment Event or if performance of the Issuer's obligations under the Securities becomes illegal, or becomes illegal or impractical by reason of force majeure or act of state. The amount payable under the Securities on early redemption will be the fair market value of each Security. ***Representative of Holders*** No representative of the Holders has been appointed by the Issuer. Please also refer to Element C.8 above for rights attaching to the Securities.
C.10	Derivative component in the interest payment	Not applicable.
C.11	Admission to Trading	Application will be made by the Issuer (or on its behalf) for the Securities to be admitted to trading on the "**SeDeX MTF**".
C.15	How the value of the investment in the derivative securities is affected by the value of the underlying assets	The amount payable on redemption is calculated by reference to the Underlying Reference(s). See Elements C.9 above and C.18 below.
C.16	Maturity of the derivative Securities	The Redemption Date of the Securities is as set out in the table in Element C.20 below.
C.17	Settlement Procedure	This Series of Securities is cash settled. The Issuer does not have the option to vary settlement.
C.18	Return on derivative securities	See Element C.8 above for the rights attaching to the Securities. ***Final Redemption*** Unless previously redeemed or purchased and cancelled, each Security entitles its holder to receive from the Issuer on the Redemption Date a Cash Settlement Amount equal to: ***Final Payouts*** **Exchange Traded Securities (ETS) Final Payouts** **Leverage Products:**

Element	Title	
		Leverage: fixed term products which have a return linked to the performance of the Underlying Reference. The calculation of the return is based on various mechanisms (including knock-out features). There is no capital protection. **ETS Final Payout 2210** (i) if the Securities are specified as being *Call* Securities: $$\text{Max}\left(0; \left(\frac{\text{Final Price} - \text{Capitalised Exercise Price}}{\text{Parity} \times \text{Conversion Rate Final}}\right)\right);$$ or (ii) if the Securities are specified as being *Put* Securities: $$\text{Max}\left(0; \left(\frac{\text{Capitalised Exercise Price} - \text{Final Price}}{\text{Parity} \times \text{Conversion Rate Final}}\right)\right).$$ ***Description of the Payout*** *The Payout will be equal to (i) in the case of Call Securities, the excess (if any) of the Final Price over the Capitalised Exercise Price, or (ii) in the case of Put Securities, the excess (if any) of the Capitalised Exercise Price over the Final Price, in each case divided by the Conversion Rate and Parity.*
		Automatic Early Redemption If on any Automatic Early Redemption Valuation Date an Automatic Early Redemption Event occurs, the Securities will be redeemed early at the Automatic Early Redemption Amount (if any) on the Automatic Early Redemption Date. The Automatic Early Redemption Amount will be an amount equal to: **Automatic Early Redemption Payout 2210/1:** - *in respect to Call Securities:* $$\text{Max}\left(0; \left(\frac{\text{Final Price Early} - \text{Capitalised Exercise Price}}{\text{Parity} \times \text{Conversion Rate Early}}\right)\right)$$ - *in respect to Put Securities*: $$\text{Max}\left(0; \left(\frac{\text{Capitalised Exercise Price} - \text{Final Price Early}}{\text{Parity} \times \text{Conversion Rate Early}}\right)\right)$$ "**Automatic Early Redemption Event**" means that: - *in respect to a Call Security*, the Observation Price is less than or equal to the applicable Security Threshold; or - *in respect to a Put Security*, the Observation Price is greater than or equal to the applicable Security Threshold; "**Automatic Early Redemption Date**" means the date falling five Business Days following the Automatic Early Redemption Valuation Date. The above provisions are subject to adjustment as provided in the conditions of the Securities to take into account events in relation to the Underlying Reference or the Securities. This may lead to adjustments being made to the Securities or in some cases the Securities being terminated early at an early redemption amount (see item C.9).
C.19	Final reference price of the Underlying	The final reference price of the underlying will be determined in accordance with the valuation mechanics set out in Element C.18 above.
C.20	Underlying Reference	The Underlying Reference is as set out in the table below. Information on the

Section D - Risks

Element	Title	
D.2	Key risks regarding the Issuer and the Guarantor	Prospective purchasers of the Securities should be experienced with respect to options and options transactions and should understand the risks of transactions involving the Securities. An investment in the Securities presents certain risks that should be taken into account before any investment decision is made. Certain risks may affect the Issuer's ability to fulfil its obligations under the Securities or the Guarantor's ability to perform its obligations under the Guarantee, some of which are beyond its control. In particular, the Issuer and the Guarantor, together with the BNPP Group, are exposed to the risks associated with its activities, as described below: ***Guarantor*** BNPP's 2019 unaudited financial statements set out seven main categories of risk inherent in its activities: (1) *Credit Risk* - Credit risk is the consequence resulting from the likelihood that a borrower or counterparty will fail to meet its obligations in accordance with agreed terms. The probability of default and the expected recovery on the loan or receivable in the event of default are key components of the credit quality assessment. BNPP's risk-weighted assets subject to this type of risk amounted to EUR 524 billion at 31 December 2019. (2) *Securisation in the Banking Portfolio* - Securitisation means a transaction or scheme, whereby the credit risk associated with an exposure or pool of exposures is tranched, having the following characteristics: - payments made in the transaction or scheme are dependent upon the performance of the exposure or pool of exposures; - the subordination of tranches determines the distribution of losses during the life of the risk transfer. Any commitment (including derivatives and liquidity lines) granted to a securitisation operation must be treated as a securitisation exposure. Most of these commitments are held in the prudential banking portfolio. BNPP's risk-weighted assets subject to this type of risk amounted to EUR 11 billion at 31 December 2019. (3) *Counterparty credit risk* - Counterparty credit risk is the translation of the credit risk embedded in financial transactions, investments and/or settlement transactions between counterparties. Those transactions include bilateral contracts such as over-the-counter ("**OTC**") derivatives contracts as well as contracts settled through clearing houses. The amount of this risk may vary over time in line with changing market parameters which then impacts the replacement value of the relevant transactions. Counterparty risk lies in the event that a counterparty defaults on its obligations to pay BNPP the full present value of the flows relating to a transaction or a portfolio for which BNPP is a net receiver. Counterparty credit risk is also linked to the replacement cost of a derivative or portfolio in the event of counterparty default. Hence, it can be seen as a market risk in case of default or a contingent risk. BNPP's risk-weighted assets subject to this type of risk amounted to EUR 30 billion at 31 December 2019. (4) *Market Risk* - Market risk is the risk of incurring a loss of value due to adverse trends in market prices or parameters, whether directly observable or not. Observable market parameters include, but are not limited to, exchange rates, prices of securities and commodities (whether listed or obtained by

Element	Title	
		reference to a similar asset), prices of derivatives, and other parameters that can be directly inferred from them, such as interest rates, credit spreads, volatilities and implied correlations or other similar parameters. Non-observable factors are those based on working assumptions such as parameters contained in models or based on statistical or economic analyses, non-ascertainable in the market. In fixed income trading books, credit instruments are valued on the basis of bond yields and credit spreads, which represent market parameters in the same way as interest rates or foreign exchange rates. The credit risk arising on the issuer of the debt instrument is therefore a component of market risk known as issuer risk. Liquidity is an important component of market risk. In times of limited or no liquidity, instruments or goods may not be tradable or may not be tradable at their estimated value. This may arise, for example, due to low transaction volumes, legal restrictions or a strong imbalance between demand and supply for certain assets. The market risk related to banking activities encompasses the interest rate and foreign exchange risks stemming from banking intermediation activities. BNPP's risk-weighted assets subject to this type of risk amounted to EUR 19 billion at 31 December 2019. (5) *Liquidity risk* - Liquidity risk is the risk that BNPP will not be able to honour its commitments or unwind or settle a position due to the market environment or idiosyncratic factors (i.e. specific to BNP Paribas), within a given timeframe and at a reasonable cost. Liquidity risk reflects the risk of the BNPP Group being unable to fulfil current or future foreseen or unforeseen cash or collateral requirements, across all time horizons, from the short to the long term. This risk may stem from the reduction in funding sources, draw down of funding commitments, a reduction in the liquidity of certain assets, or an increase in cash or collateral margin calls. It may be related to BNPP itself (reputation risk) or to external factors (risks in some markets). (6) *Operational risk* - Operational risk is the risk of incurring a loss due to inadequate or failed internal processes or due to external events, whether deliberate, accidental or natural occurrences. Management of operational risk is based on an analysis of the "cause event effect" chain. BNPP's risk-weighted assets subject to this type of risk amounted to EUR 69 billion at 31 December 2019. (7) *Insurance Risks* - BNP Paribas Cardif is exposed to the following risks: - market risk, risk of a financial loss arising from adverse movements of financial markets. These adverse movements are notably reflected in prices (including, but not limited to, foreign exchange rates, bond prices, equity and commodity prices, derivatives prices, real estate prices) and derived from fluctuations in interest rates, credit spreads, volatility and correlation; - credit risk, risk of loss resulting from fluctuations in the credit standing of issuers of securities, counterparties and any debtors to which insurance and reinsurance undertakings are exposed. Among the debtors, risks related to financial instruments (including the banks in which BNP Paribas Cardif holds deposits) and risks related to receivables generated by the underwriting activities (including, but not limited to, premium collection, reinsurance recovering) are distinguished into two categories: "Asset Credit Risk" and "Liabilities Credit Risk";

Element	Title	
		- underwriting risk is the risk of a financial loss caused by a sudden, unexpected increase in insurance claims. Depending on the type of insurance business (life, non-life), this risk may be statistical, macroeconomic or behavioural, or may be related to public health issues or disasters; and - operational risk is the risk of loss resulting from the inadequacy or failure of internal processes, IT failures or deliberate external events, whether accidental or natural. The external events mentioned in this definition include those of human or natural origin. More generally, the risks to which the BNPP Group is exposed may arise from a number of factors related, among others, to changes in its macroeconomic or regulatory environment or factors related to the implementation of its strategy and its business. The first amendment to BNPP's 2019 universal registration document sets out seven categories of risk specific to BNPP's business, as follows: **1 Credit risk, counterparty risk and securitization risk in the banking portfolio** 1 A substantial increase in new provisions or a shortfall in the level of previously recorded provisions exposed to credit risk and counterparty risk could adversely affect BNPP's results of operations and financial condition; 2 The soundness and conduct of other financial institutions and market participants could adversely affect BNPP. **2 Operational Risk** 1 BNPP's risk management policies, procedures and methods may leave it exposed to unidentified or unanticipated risks, which could lead to material losses; 2 An interruption in or a breach of BNPP's information systems may cause substantial losses of client or customer information, damage to BNPP's reputation and result in financial losses; 3 Reputational risk could weigh on BNPP's financial strength and diminish the confidence of clients and counterparties in it. **3 Market Risk** 1 BNPP may incur significant losses on its trading and investment activities due to market fluctuations and volatility; 2 BNPP may generate lower revenues from commission and fee based businesses during market downturns; 3 Adjustments to the carrying value of BNPP's securities and derivatives portfolios and BNPP's own debt could have an adverse effect on its net income and shareholders' equity. **4 Liquidity and Funding Risk** 1 BNPP's access to and cost of funding could be adversely affected by a resurgence of financial crises, worsening economic conditions, rating downgrades, increases in sovereign credit spreads or other factors; 2 Protracted market declines can reduce BNPP's liquidity, making it harder to sell assets and possibly leading to material losses. Accordingly, BNPP must ensure that its assets and liabilities properly match in order to avoid exposure to losses; 3 Any downgrade of BNPP's credit ratings could weigh heavily on its profitability. **5 Risks related to the macroeconomic and market environment**

Element	Title	
		1 Adverse economic and financial conditions have in the past had and may in the future have an impact on BNPP and the markets in which it operates; 2 Significant interest rate changes could adversely affect BNPP's revenues or profitability. The prolonged low interest rate environment carries inherent systemic risks, which could impact BNPP's income or profitability, and any exit from such environment would also carry risks; 3 Given the global scope of its activities, BNPP may be vulnerable to risk in certain countries where it operates and may be vulnerable to political, macroeconomic or financial changes in the countries and regions where it operates. **6 Regulatory Risks** 1 Laws and regulations adopted in recent years, particularly in response to the global financial crisis, as well as new legislative proposals, may materially impact BNPP and the financial and economic environment in which it operates; 2 BNPP may incur substantial fines and other administrative and criminal penalties for non compliance with applicable laws and regulations, and may also incur losses in related (or unrelated) litigation with private parties; 3 BNPP could experience an unfavourable change in circumstances, causing it to become subject to a resolution proceeding: holders of securities of BNPP could suffer losses as a result. **7 Risks related to BNPP's growth in its current environment** 1 BNPP's failure to implement its strategic plan or to achieve its published financial objectives could affect the trading price of its securities; 2 BNPP may experience difficulties integrating acquired companies and may be unable to realize the benefits expected from its acquisitions; 3 BNPP's current environment may be affected by the intense competition amongst banking and non banking operators, which could adversely affect BNPP's revenues and profitability; 4 BNPP could experience business disruption and losses due to climate change risks such as transition risks, physical risks or liability risks; 5 Changes in certain holdings in credit or financial institutions could have an impact on BNPP's financial position. ***Issuer*** The main risks described above in relation to BNPP also represent the main risks for BNPP B.V., either as an individual entity or a company in the BNPP Group. *Dependency Risk* BNPP B.V. is an operating company. The assets of BNPP B.V. consist of the obligations of other BNPP Group entities. The ability of BNPP B.V. to meet its own obligations will depend on the ability of other BNPP Group entities to fulfil their obligations. In respect of securities it issues, the ability of BNPP B.V. to meet its obligations under such securities depends on the receipt by it of payments under certain hedging agreements that it enters with other BNPP Group entities. Consequently, Holders of BNPP B.V. securities will, subject to the provisions of the Guarantee issued by BNPP, be exposed to the ability of BNPP Group entities to perform their obligations under such hedging agreements.

Element	Title	
		Market Risk BNPP B.V. takes on exposure to market risks arising from positions in interest rates, currency exchange rates, commodities and equity products, all of which are exposed to general and specific market movements. However, these risks are hedged by option and swap agreements and therefore these risks are mitigated in principle. *Credit Risk* BNPP B.V. has significant concentration of credit risks as all OTC contracts are acquired from its parent company and other BNPP Group entities. Taking into consideration the objective and activities of BNPP B.V. and the fact that its parent company is under supervision of the European Central Bank and the Autorité de Contrôle Prudentiel et de Résolution management considers these risks as acceptable. The long term senior debt of BNP Paribas is rated (A+) by Standard & Poor's and (Aa3) by Moody's. *Liquidity Risk* BNPP B.V. has significant liquidity risk exposure. To mitigate this exposure, BNPP B.V. entered into netting agreements with its parent company and other BNPP Group entities.
D.3	Key risks regarding the Securities	In addition to the risks (including the risk of default) that may affect the Issuer's ability to fulfil its obligations under the Securities [or the Guarantor's ability to perform its obligations under the Guarantee], there are certain factors which are material for the purposes of assessing the risks associated with Securities issued under the Base Prospectus, including: *Market Risks* -the Securities are unsecured obligations; -Securities including leverage involve a higher level of risk and whenever there are losses on such Securities those losses may be higher than those of a similar security which is not leveraged; -the trading price of the Securities is affected by a number of factors including, but not limited to, (in respect of Securities linked to an Underlying Reference) the price of the relevant Underlying Reference(s), time to redemption and volatility and such factors mean that the trading price of the Securities may be below the Cash Settlement Amount or value of the Entitlement; -exposure to the Underlying Reference in many cases will be achieved by the relevant Issuer entering into hedging arrangements and, in respect of Securities linked to an Underlying Reference, potential investors are exposed to the performance of these hedging arrangements and events that may affect the hedging arrangements and consequently the occurrence of any of these events may affect the value of the Securities; *Holder Risks* -the meetings of Holders provisions permit defined majorities to bind all Holders; -in certain circumstances Holders may lose the entire value of their investment; *Issuer/Guarantor Risks* -a reduction in the rating, if any, accorded to outstanding debt securities of the Issuer or Guarantor (if applicable) by a credit rating agency could result in a reduction in the trading value of the Securities;

Element	Title	
		-certain conflicts of interest may arise (see Element E.4 below); *Legal Risks* -the occurrence of an additional disruption event or optional additional disruption event may lead to an adjustment to the Securities, early redemption or may result in the amount payable on scheduled redemption being different from the amount expected to be paid at scheduled redemption and consequently the occurrence of an additional disruption event and/or optional additional disruption event may have an adverse effect on the value or liquidity of the Securities; -expenses and taxation may be payable in respect of the Securities; -the Securities may be redeemed in the case of illegality or impracticability and such redemption may result in an investor not realising a return on an investment in the Securities; -any judicial decision or change to an administrative practice or change to English law or French law, as applicable, after the date of the Base Prospectus could materially adversely impact the value of any Securities affected by it; *Secondary Market Risks* -the only means through which a Holder can realise value from the Security prior to its Redemption Date is to sell it at its then market price in an available secondary market and that there may be no secondary market for the Securities (which could mean that an investor has to exercise or wait until redemption of the Securities to realise a greater value than its trading value); -BNP Paribas Arbitrage S.N.C. is required to act as market-maker. In those circumstances, BNP Paribas Arbitrage S.N.C. will endeavour to maintain a secondary market throughout the life of the Securities, subject to normal market conditions and will submit bid and offer prices to the market. The spread between bid and offer prices may change during the life of the Securities. However, during certain periods, it may be difficult, impractical or impossible for BNP Paribas Arbitrage S.N.C. to quote bid and offer prices, and during such periods, it may be difficult, impracticable or impossible to buy or sell these Securities. This may, for example, be due to adverse market conditions, volatile prices or large price fluctuations, a large marketplace being closed or restricted or experiencing technical problems such as an IT system failure or network disruption. *Risks relating to Underlying Reference Asset(s)* -In addition, there are specific risks in relation to Securities which are linked to an Underlying Reference (including Hybrid Securities) and an investment in such Securities will entail significant risks not associated with an investment in a conventional debt security. Risk factors in relation to Underlying Reference linked Securities include: -exposure to one or more share(s) (including shares which are attached to each other trading as a single unit ("**Stapled Shares**")), similar market risks to a direct equity investment, global depositary receipt ("**GDR**") or American depositary receipt ("**ADR**"), potential adjustment events or extraordinary events affecting shares and market disruption or failure to open of an exchange which may have an adverse effect on the value and liquidity of the Securities and that the Issuer will not provide post-issuance information in relation to the Underlying Reference. *Risks relating to Specific types of products* The following risks are associated with ETS Products: Leverage Products

Element	Title	
		Investors may be exposed to a partial or total loss of their invested capital. The return on the Securities depends on the performance of the Underlying Reference(s) and the application of automatic early redemption features. Additionally, the return may depend on other market factors such as interest rates, the implied volatility of the Underlying Reference(s) and the time remaining until redemption. The effect of leverage on the Securities may be either positive or negative.
D.6	Risk warning	See Element D.3 above. In the event of the insolvency of the Issuer or if it is otherwise unable or unwilling to repay the Securities when repayment falls due, an investor may lose all or part of his investment in the Securities. If the Guarantor is unable or unwilling to meet its obligations under the Guarantee when due, an investor may lose all or part of his investment in the Securities. In addition, investors may lose all or part of their investment in the Securities as a result of the terms and conditions of the Securities.

Section E - Offer

Element	Title	
E.2b	Reasons for the offer and use of proceeds	The net proceeds from the issue of the Securities will become part of the general funds of the Issuer. Such proceeds may be used to maintain positions in options or futures contracts or other hedging instruments.
E.3	Terms and conditions of the offer	The issue price of the Securities is as set out in table Element C.20. The Issuer intends to publish advertisement in Italy referring to the Securities and the admission to trading of the Securities on SeDeX MTF, which may be qualified as a public offer of Securities in Italy under Italian law and this Issue Specific Summary is prepared for this purpose. No Offer Period is envisaged.
E.4	Interest of natural and legal persons involved in the issue/offer	Any Manager and its affiliates may also have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and the Guarantor and their affiliates in the ordinary course of business. Other than as mentioned above, so far as the Issuer is aware, no person involved in the issue of the Securities has an interest material to the offer, including conflicting interests.
E.7	Expenses charged to the investor by the Issuer	No expenses are being charged to an investor by the Issuer.

NOTA DI SINTESI SPECIFICA PER LA SINGOLA EMISSIONE

Le note di sintesi sono composte dagli elementi informativi richiesti dalla normativa applicabile noti come "Elementi". Detti Elementi sono numerati nelle sottostanti Sezioni da A ad E (A.1 - E.7). La presente Nota di Sintesi contiene tutti gli Elementi che devono essere inclusi in una nota di sintesi per questo tipo di Titoli, di Emittente e di Garante. Dal momento che taluni Elementi potrebbero non essere richiesti per questa specifica Nota di Sintesi, potrebbero esserci delle mancanze e/o dei salti nella sequenza numerica degli Elementi. Anche se un Elemento potrebbe essere inserito nella Nota di Sintesi in base al tipo di Titoli, di Emittente e di Garante, è possibile che non vi siano informazioni pertinenti da fornire in relazione a detto Elemento. In tal caso, sarà inserita un breve descrizione dell'Elemento in questione unitamente alla specificazione "Non Applicabile".

Section A - Introduzione e avvertenze

B.14	Dipendenza da altri soggetti del Gruppo	BNPP B.V. dipende da BNPP. BNPP B.V. è una società interamente controllata da BNPP specialmente incaricata dell'emissione di titoli quali notes, warrants o certificati o altre obbligazioni che vengono sviluppate, definite e vendute agli investitori da altre società del Gruppo BNPP (inclusa BNPP). I titoli sono coperti attraverso l'acquisto di strumenti di copertura e/o titoli di garanzia da BNP Paribas ed entità di BNP Paribas, come descritto nell'Elemento D.2 di cui sotto. Si veda anche l'Elemento B.5 di cui sopra.
B.15	Principali attività	L'attività principale dell'Emittente consiste nell'emettere e/o acquisire strumenti finanziari di qualsiasi natura e nello stipulare contratti correlati per conto di vari enti nell'ambito del Gruppo BNPP.
B.16	Azionisti di controllo	BNP Paribas detiene il 100% del capitale sociale di BNPP B.V..
B.17	Rating	I rating del credito a lungo termine di BNPP B.V. è A+ con outlook stabile (S&P Global Ratings Europe Limited) e i rating del credito a breve termine di BNPP B.V. sono A-1 (S&P Global Ratings Europe Limited). Ai Titoli non è stato assegnato alcun giudizio di rating. Il rating di un titolo non costituisce una raccomandazione ad acquistare, vendere o detenere titoli, e può essere soggetto a sospensione, riduzione o ritiro in qualsiasi momento da parte dell'agenzia di rating che l'ha assegnato.
B.18	Descrizione della Garanzia	I Titoli emessi saranno garantiti incondizionatamente e irrevocabilmente da BNP Paribas ("**BNPP**" o il "**Garante**") ai sensi di un atto di garanzia di diritto inglese stipulato da BNPP in data 3 giugno 2019, o in prossimità di tale data (la "**Garanzia**"). Nell'eventualità di un bail-in di BNPP ma non di BNPP B.V., le obbligazioni e/o gli importi dovuti da BNPP ai sensi della garanzia saranno ridotti per riflettere tale eventuale modifica o riduzione applicata alle responsabilità di BNPP e derivante dall'applicazione di una misura di bail-in di BNPP da parte di un organismo di vigilanza incaricato (anche nel caso in cui la garanzia non sia soggetta al bail-in). Le obbligazioni in conformità con la garanzia sono obbligazioni senior privilegiate (ai sensi dell'Articolo L.613-30-3-I-3° del Code monétaire et financier francese) e non garantite di BNPP e avranno pari priorità rispetto a ogni altra obbligazione non subordinata e non garantita presente e futura, fatte salve le eccezioni di volta in volta rese obbligatorie ai sensi del diritto francese.

La sede legale al 16, boulevard des Italiens - 75009 Parigi, Francia.
B.19/ B.4b	Informazioni sulle tendenze	***Contesto macroeconomico*** I risultati di BNPP sono influenzati dal contesto macroeconomico e di mercato. Data la natura della sua attività, BNPP è particolarmente sensibile alle condizioni macroeconomiche e di mercato in Europa. Nel 2018, la crescita globale si è mantenuta saldamente intorno al 3,7% (secondo il FMI), riflettendo un tasso di crescita stabile nelle economie avanzate (+2,4% dopo il +2,3% del 2017) e nelle economie emergenti (+4,6% dopo il +4,7% del 2017). Da quando l'economia dei maggiori paesi sviluppati ha segnato il picco del suo ciclo, le banche centrali hanno continuato a correggere la politica monetaria accomodante o a

Elemento	Titolo	
		pianificarne una progressiva riduzione. Con livelli d'inflazione ancora modesti, tuttavia, le banche centrali sono riuscite a gestire con gradualità questa transizione, limitando così i rischi di una contrazione dell'attività economica. Pertanto, nel 2019 il FMI prevede una conferma del tasso di crescita globale degli ultimi due anni (+3,5%), nonostante la lieve frenata attesa nelle economie avanzate). In questo scenario, possiamo identificare due tipologie di rischi: *Rischi di instabilità finanziaria derivanti dalla gestione delle politiche monetarie* Vanno evidenziati due ordini di rischi: un brusco aumento dei tassi d'interesse e il mantenimento per un periodo troppo esteso dell'attuale politica monetaria, di segno fortemente accomodante. Da una parte, la stabile stretta della politica monetaria negli Stati Uniti (iniziata nel 2015) e la politica monetaria meno accomodante nell'eurozona (la riduzione degli acquisti di titoli avviata a gennaio 2018 e conclusa a dicembre 2018) comporta rischi di turbolenze finanziarie e un rallentamento economico più marcato del previsto. Bisogna forte evidenziare soprattutto il rischio di un rialzo mal governato dei tassi d'interesse di lungo periodo, nello scenario di un aumento inatteso dell'inflazione o di una stretta non prevista delle politiche monetarie. Se si concretizzasse, questo rischio potrebbe ripercuotersi negativamente sui mercati finanziari e in particolare su quelli caratterizzati da premi per il rischio estremamente ridotti rispetto alle loro medie storiche, dopo un decennio di politiche monetarie accomodanti (crediti a società o paesi non-investment grade, alcuni settori dei mercati azionari e obbligazionari ecc.) oltre che su alcuni settori sensibili ai tassi d'interesse. D'altra parte, nonostante la ripresa registrata da metà 2016, i tassi di interesse restano bassi, il che potrebbe continuare a incoraggiare un'eccessiva assunzione di rischio tra alcuni operatori del sistema finanziario: allungamento delle scadenze di finanziamenti e attivi in portafoglio, politica meno restrittiva nella concessione di prestiti e un incremento dei finanziamenti tramite ricorso all'indebitamento. Alcuni di questi attori (compagnie assicurative, fondi pensione, asset manager ecc.) presentano una dimensione sempre più sistemica e, in caso di turbolenza dei mercati (associata per esempio a un brusco balzo dei tassi d'interesse e/o a una brusca correzione dei prezzi), potrebbero essere spinti a liquidare posizioni rilevanti in un mercato scarsamente liquido. *Rischi sistemici correlati all'aumento del debito* Da una prospettiva macroeconomica, l'impatto di un aumento dei tassi potrebbe essere considerevole per i paesi con un elevato rapporto fra il debito pubblico e/o privato e il PIL. È soprattutto il caso di alcuni paesi europei (in particolare la Grecia, l'Italia e il Portogallo), i cui indici di indebitamento rispetto al PIL superano spesso il 100%, ma sono coinvolti anche i paesi emergenti. Fra il 2008 e il 2018, questi ultimi hanno registrato un marcato incremento del loro debito, incluso il debito in valuta nei confronti di creditori esteri. Il settore privato ha rappresentato la principale fonte di questo debito, ma un contributo minore è giunto anche dal settore pubblico, specialmente in Africa. Sono paesi particolarmente vulnerabili alla prospettiva di una stretta monetaria nelle economie avanzate. I deflussi di capitale potrebbero incidere sui tassi di cambio, aumentare gli oneri per sostenere tale debito, importare inflazione e costringere le banche centrali dei paesi emergenti a una stretta delle condizioni di erogazione del credito. Si ridimensionerebbero le previsioni di crescita economica, potrebbero scendere i rating delle emissioni sovrane e, infine, si profilerebbero maggiori rischi per le banche. Malgrado l'esposizione contenuta del Gruppo BNP Paribas verso i mercati emergenti, la vulnerabilità di queste economie può generare turbolenze nel sistema finanziario globale in grado di coinvolgere il Gruppo e, potenzialmente, di alterarne i risultati. Va sottolineata la possibile emersione di un rischio legato al debito, non solo in caso di brusco rialzo dei tassi d'interesse bensì anche di eventuali shock negativi della crescita.

Elemento	Titolo	
		Legislazione e regolamenti applicabili alle istituzioni finanziarie Le modifiche recenti e future nelle leggi e nei regolamenti applicabili alle istituzioni finanziarie potrebbero incidere considerevolmente su BNPP. Le misure adottate di recente nonché le misure (o i relativi provvedimenti applicativi) ancora in via di definizione che producono o potrebbero produrre effetti sul BNPP includono in particolare: – le normative che disciplinano il capitale: la Direttiva sui requisiti di capitale IV ("**CRD 4**")/il Regolamento sui requisiti di capitale ("**CRR**"), lo standard internazionale per capacità di assorbimento totale di perdite ("**TLAC**") e la designazione di BNPP come istituzione finanziaria di importanza sistemica da parte del Financial Stability Board, organismo internazionale con il compito di monitorare il sistema finanziario mondiale; – le riforme strutturali che comprendono la legge francese in materia bancaria del 26 luglio 2013 che impone alle banche la creazione di filiali o l'esecuzione di operazioni interne di natura "speculativa" distintamente dalle tradizionali attività bancarie al dettaglio, la "Regola di Volcker" negli Stati Uniti che impone limiti su operazioni interne, finanziamenti e investimenti in fondi di private equity e hedge fund da parte di banche statunitensi ed estere; – il Meccanismo di Vigilanza Unico Europeo e l'ordinanza del 6 novembre 2014; – la Direttiva del 16 aprile 2014 in materia di sistemi di garanzia sui depositi e i relativi decreti delega e attuativi, la Direttiva del 15 maggio 2014 che istituisce un quadro di Risanamento e Risoluzione delle crisi bancarie, il Meccanismo di Risoluzione Unico che istituisce il Consiglio di Risoluzione Unico e il Fondo di Risoluzione Unico; – la Norma Finale della Federal Reserve statunitense che impone regole prudenziali più stringenti sulle operazioni statunitensi di importanti banche estere, in particolare l'obbligo di creazione di una holding intermediaria distinta negli Stati Uniti (capitalizzata e soggetta a regolamentazione) al fine di ospitare le filiali statunitensi; – le nuove norme che regolamentano le attività in derivati over-the-counter ai sensi del Titolo VII della legge Dodd-Frank per la riforma di Wall Street e la difesa dei consumatori, in particolare i requisiti di margine per i prodotti derivati non liquidati e i derivati di titoli negoziati da intermediari su swap, principali negoziatori di swap, intermediari su swap basati su titoli e principali operatori di swap basati su titoli, e le norme della Securities and Exchange Commission statunitense che richiede la registrazione delle banche e dei principali operatori di swap attivi su mercati derivati nonché obblighi di trasparenza e informazione sulle operazioni derivate; – la nuova Direttiva sui mercati degli strumenti finanziari ("**MiFID II**") e il Regolamento sui mercati degli strumenti finanziari ("**MiFIR**"), e i regolamenti europei che disciplinano la compensazione di alcuni prodotti derivati over-the-counter da parte di controparti centralizzate e gli obblighi di informativa sulle operazioni di finanziamento tramite titoli agli organismi centralizzati; – il Regolamento generale sulla protezione dei dati ("**GDPR**") entrato in vigore il 25 maggio 2018. Tale regolamento mira a far avanzare il quadro europeo in materia di riservatezza dei dati e migliorare la tutela dei dati personali nell'Unione europea. Le imprese rischiano pesanti penali in caso di mancato adeguamento agli standard definiti nel RGPD. Questo Regolamento si applica a tutte le banche che offrono servizi ai cittadini europei; e – il completamento di Basilea 3 pubblicato dal comitato di Basilea nel dicembre 2017, che ha introdotto una revisione della misurazione del rischio creditizio, del rischio operativo e del rischio di aggiustamento della valutazione del credito ("**AVC**") per il calcolo degli attivi ponderati per il rischio. Queste

Elemento	Titolo	
		misure dovrebbero entrare in vigore nel gennaio 2022 e saranno soggette a soglie minime di prodotto (basate su approcci standardizzati), che verranno applicate con gradualità a partire dal 2022 per raggiungere il livello definitivo nel 2027. Inoltre, in questo contesto normativo sempre più severo, il rischio di non conformità alle leggi e normative esistenti, in particolare quelle relative alla protezione degli interessi dei clienti e dei dati personali, è un rischio importante per il settore bancario, che potrebbe risultare in perdite e sanzioni elevate. Accanto al sistema di conformità, che copre nello specifico questo tipo di rischio, il Gruppo BNP Paribas mette l'interesse dei propri clienti, e più in generale delle parti interessate, al centro dei propri valori. Pertanto, il nuovo codice di condotta adottato dal Gruppo BNP Paribas nel 2016 definisce valori e regole di condotta precise in questo campo. ***Sicurezza informatica e rischio tecnologico*** La capacità di BNPP di esercitare la propria attività economica è intrinsecamente legata alla fluidità delle transazioni elettroniche, oltre che alla protezione e alla sicurezza delle risorse informatiche e tecnologiche. Il cambiamento tecnologico sta accelerando con la trasformazione digitale e il conseguente aumento del numero di circuiti di comunicazione, la proliferazione delle fonti di dati, la crescente automazione dei processi e il maggior ricorso a transazioni bancarie elettroniche. Il progresso e l'accelerazione nel cambiamento tecnologico stanno fornendo ai cybercriminali nuove possibilità per alterare, trafugare e divulgare dati. Il numero di attacchi è in aumento, con una portata e un grado di complessità superiori in tutti i settori, inclusi i servizi finanziari. L'esternalizzazione di un numero crescente di processi espone inoltre il Gruppo BNP Paribas a rischi strutturali di sicurezza informatica e di natura tecnologica, che hanno determinato la comparsa di potenziali vettori di attacco che i cybercriminali possono sfruttare. Di conseguenza, il Gruppo BNP Paribas dispone di una seconda linea di difesa nella Funzione di Rischio dedicata alla gestione dei rischi tecnologici e di sicurezza informatica. Pertanto, gli standard operativi vengono regolarmente aggiornati al fine di sostenere l'evoluzione digitale e l'innovazione di BNPP, gestendo al tempo stesso le minacce in essere ed emergenti (per esempio reati informatici, spionaggio ecc.).

	Dichiarazioni di assenza di cambiamenti significativi o negativi sostanziali Si veda l'Elemento B.12 di cui sopra nel caso del gruppo BNPP. Non si sono verificati cambiamenti negativi sostanziali nei prospetti di BNPP o del Gruppo BNPP dal 31 dicembre 2018 (termine dell'ultimo periodo finanziario per il quale è stato pubblicato un bilancio).	
B.19/ B.13	Eventi aventi un impatto sulla solvibilità del Garante	Non applicabile, per quanto a conoscenza del Garante, non si sono verificati eventi sostanzialmente rilevanti per la valutazione della solvibilità del Garante al 30 settembre 2019.
B.19/ B.14	Dipendenza da altri soggetti del Gruppo	Fatto salvo quanto previsto al paragrafo che segue, BNPP non è dipendente da altri membri del Gruppo BNPP. Nell'aprile 2004, BNP Paribas SA ha avviato l'esternalizzazione dei Servizi di Gestione delle Infrastrutture IT alla joint venture "BNP Paribas Partners for Innovation" (**BP²I**), costituita con IBM France alla fine del 2003. BP²I fornisce Servizi di Gestione delle Infrastrutture IT a BNP Paribas SA e diverse controllate di BNP Paribas in Francia (incluse BNP Paribas Personal Finance, BP2S e BNP Paribas Cardif), Svizzera e Italia. L'accordo contrattuale con IBM France è stato successivamente prorogato di anno in anno fino alla fine del 2021, quando verrà poi prorogato per un periodo di 5 anni (cioè sino alla fine del 2026), in particolare per integrare i servizi cloud IBM. BP²I è sotto il controllo operativo di IBM France. BNP Paribas esercita una forte influenza su questa entità, di cui divide la proprietà in parti uguali (50/50) con IBM France. Il personale messo a disposizione di BP²I da BNP Paribas rappresentà metà del personale permanente di tale entità. I suoi fabbricati e centri di elaborazione appartengono al Gruppo BNPP e la governance in atto offre a BNP Paribas il diritto contrattuale di vigilare sull'entità e riportarla entro il perimetro del Gruppo BNPP, se necessario. IBM Luxembourg è responsabile dei servizi infrastrutturali e di produzione dati di alcune entità BNP Paribas Luxembourg. Le operazioni di elaborazione dati di BancWest sono esternalizzate a Fidelity Information Services. Le operazioni di elaborazione dati di Cofinoga France sono esternalizzate a IBM Services. Si veda anche l'Elemento B.5 di cui sopra.

B.19/ B.15	Principali attività	BNP Paribas detiene posizioni importanti nei suoi due rami di attività principali:
		
		● **Attività e servizi bancari al dettaglio**, che include:
		  ● Mercati domestici, comprendente:
		  ● French Retail Banking (FRB),
		  ● BNL banca commerciale (BNL bc), l'attività bancaria retail italiana,
		  ● Belgian Retail Banking (BRB),
		  ● Attività di Altri Mercati Nazionali, tra cui Luxembourg Retail Banking (LRB);
		  ● Servizi finanziari internazionali, comprendente:
		  ● Europe-Mediterranean,
		  ● BancWest,
		  ● Personal Finance,
		  ● Insurance,
		  ● Wealth and Asset Management;
		● **Attività bancarie corporate e istituzionali (CIB)**, che include:

Elemento	Titolo	
		● Corporate Banking, ● Global Markets, ● Securities Services.
B.19/ B.16	Azionisti di controllo	Nessuno degli azionisti esistenti controlla, direttamente o indirettamente, BNPP. Al 31 dicembre 2018 gli azionisti principali erano Société Fédérale de Participations et d'Investissement ("**SFPI**"), una *société anonyme* di interesse pubblico (società per azioni) che agisce per conto del Governo belga, che detiene il 7,7% del capitale sociale, BlackRock Inc. che detiene il 5,1% del capitale sociale e il Granducato di Lussemburgo, che detiene l'1,0% del capitale sociale. Per quanto a conoscenza di BNPP, nessun azionista diverso da SFPI e BlackRock Inc. detiene più del 5% del suo capitale o dei suoi diritti di voto.
B.19/ B.17	Rating	I rating del credito a lungo termine di BNPP sono A+ con outlook stabile (S&P Global Ratings Europe Limited), Aa3 con outlook stabile (Moody's Investors Service Ltd.), AA- con outlook stabile (Fitch France S.A.S.) e AA (basso) con outlook stabile (DBRS Limited), i rating del credito a breve termine di BNPP sono A-1 (S&P Global Ratings Europe Limited), P-1 (Moody's Investors Service Ltd.), F1+ (Fitch France S.A.S) e R-1 (medio) (DBRS Limited). Il rating di un titolo non costituisce una raccomandazione ad acquistare, vendere o detenere titoli, e può essere soggetto a sospensione, riduzione o ritiro in qualsiasi momento da parte dell'agenzia di rating che l'ha assegnato.

Section C - Titoli

Elemento	Titolo	
C.1	Tipo e classe di Titoli/ISIN	I Titoli sono I Certificati ("**Certificati**", "**Certificates**", o "**Titoli**") e sono emessi in Serie. Il Numero di Serie dei Titoli è come indicato in C.20. Il codice ISIN è come indicato in C.20. Il *Trading Code di Borsa Italiana* è come indicato in C.20. Certificati disciplinati dalla legge inglese. I Titoli sono Titoli Regolati in Contanti.
C.2	Valuta	La valuta della presente Serie di Titoli è l'Euro (**EURO**).
C.5	Restrizioni alla libera trasferibilità	I Titoli saranno liberamente trasferibili, fatte salve le restrizioni all'offerta e alla vendita negli Stati Uniti, nello Spazio Economico Europeo, in Belgio, nella Repubblica Ceca, in Danimarca, in Finlandia, in Francia, in Germania, in Ungheria, in Irlanda, in Italia, in Lussemburgo, in Norvegia, in Polonia, in Portogallo, in Romania, in Spagna, in Svezia, nel Regno Unito, in Giappone e in Australia, e ai sensi della Direttiva sui Prospetti e delle leggi di ogni giurisdizione in cui i relativi Titoli sono offerti o venduti.
C.8	Diritti connessi ai Titoli	I Titoli emessi ai sensi del presente Prospetto di Base avranno termini e condizioni relativi, tra l'altro, a: ***Status*** I Titoli possono essere emessi su base non garantita. I Titoli emessi su base non garantita sono obbligazioni non subordinate e non garantite dell'Emittente e avranno pari priorità tra esse.
		Imposte Il Portatore deve pagare tutte le tasse, imposte e/o spese derivanti dalla liquidazione dei Titoli e/o dalla consegna o dalla cessione del Diritto Spettante. L'Emittente detrarrà dagli importi pagabili o dai beni consegnabili ai Portatori le tasse e spese non previamente detratte da importi pagati o da beni consegnati ai Portatori che l'Agente

I pagamenti saranno soggetti in ogni caso a (i) eventuali leggi fiscali o altre leggi e regolamenti agli stessi applicabili in luogo di pagamento, (ii) eventuali ritenute o detrazioni richieste ai sensi di un contratto descritto nella Sezione 1471(b) dello U.S. Internal Revenue Code del 1986 (il "**Codice**") o altrimenti imposte ai sensi delle Sezioni da 1471 a 1474 del Codice, di ogni regolamento o accordo ai sensi dello stesso, di ogni interpretazione ufficiale dello stesso, o di ogni legge di attuazione di un approccio intergovernativo agli stessi, e (iii) eventuali ritenute o detrazioni richieste ai sensi della Sezione 871(m) del Codice.
		Divieto di costituzione di garanzie reali (negative pledge) I termini dei Titoli non conterranno alcuna clausola di divieto di costituzione di garanzie reali.
		Eventi di Inadempimento I termini dei Titoli non conterranno eventi di inadempimento.
		Assemblee I termini dei Titoli conterranno disposizioni per la convocazione di assemblee dei portatori di tali Titoli per valutare questioni aventi un impatto sui loro interessi in generale. Tali disposizioni consentono a maggioranze definite di vincolare tutti i portatori, inclusi i portatori che non abbiano partecipato e votato all'assemblea del caso e i titolari che abbiano votato in maniera contraria alla maggioranza.
		Legge applicabile I Titoli W&C, l'Accordo di Agenzia di diritto inglese (e sue successive modifiche e integrazioni), la Garanzia correlata in relazione ai Titoli W&C e ogni obbligazione non contrattuale derivante da o in relazione ai Titoli W&C, l'Accordo di Agenzia di diritto inglese (e sue successive modifiche e integrazioni) e la Garanzia in relazione ai Titoli W&C saranno disciplinati dalla legge inglese e dovranno essere interpretati alla stregua della stessa.
C.9	Interessi/Rimborso	***Interessi*** I Titoli non maturano e non pagano interessi, né importi premio. ***Liquidazione*** A meno che sia già stato liquidato o annullato, ciascun Titolo sarà liquidato come indicato nell'Elemento C.18. I Titoli possono essere liquidati anticipatamente a opzione dell'Emittente all'Importo del Rimborso Facoltativo pari a: Call Payout 2210 I *Certificates* possono essere liquidati anticipatamente al verificarsi di un Evento di Turbativa Aggiuntivo, un Evento di Turbativa Aggiuntivo Opzionale, un Evento Straordinario, un Evento di Rettifica Potenziale o se l'adempimento delle obbligazioni dell'Emittente ai sensi dei Titoli diventa contraria alla legge o impossibile per motivi di forza maggiore o per legge. L'importo pagabile ai sensi dei Titoli in caso di liquidazione anticipata sarà pari al valore di mercato di ciascun Titolo. ***Rappresentante dei Portatori dei Titoli*** L'Emittente non ha nominato alcun Rappresentante dei Portatori dei Titoli. Si veda anche l'Elemento C.8 che precede per quanto riguarda i diritti connessi ai

Section D - Rischi

Elemento	Titolo	
D.2	Rischi fondamentali relativi agli Emittenti e ai Garanti	I potenziali acquirenti dei Titoli emessi ai sensi del presente Prospetto di Base dovrebbero avere esperienze di investimento relativamente ad opzioni e negoziazione di opzioni e comprendere il rischio di negoziazione che i Titoli comportano. Un investimento in Titoli presenta alcuni rischi che dovrebbero essere valutati prima di effettuare ogni decisione di investimento. Alcuni rischi possono influenzare la capacità dell'Emittente di adempiere alle proprie obbligazioni sorte relativamente ai Titoli o la capacità del Garante di adempiere alle proprie obbligazioni relativamente alla Garanzia, alcuni dei quali sono indipendenti dal loro controllo. In particolare, l'Emittente e il Garante, congiuntamente al Gruppo BNPP, è esposto ai seguenti rischi, connessi alla sua attività: ***Garante*** Il bilancio di BNPP del 2019 non sottoposto a revisione contabile ha definito sette categorie principali di rischio sono inerenti alle attività di BNPP: (1) *Rischio di Credito* - Il rischio di credito è la conseguenza derivante dalla probabilità che una banca mutuataria o una controparte non riesca ad adempiere alle sue obbligazioni nei termini previsti. La probabilità di inadempimento e l'importo atteso a fronte dell'esposizione debitoria nel caso in cui si verifichi l'inadempimento sono componenti chiave nella valutazione della qualità del credito. Al 31 dicembre 2019 le attività di rischio ponderate di BNPP soggette a questo tipo di rischio ammontavano a 524 miliardi di EUR. (2) *Cartolarizzazione del portafoglio bancario* - La cartolarizzazione è un'operazione o uno schema in base al quale il rischio di credito associato a un'esposizione o a un pool di esposizioni è diviso in tranche, aventi le seguenti caratteristiche: - i pagamenti effettuati nell'operazione o nel piano dipendono dalla performance dell'esposizione o del pool di esposizioni; - la subordinazione di alcune tranche determina la distribuzione delle perdite durante il periodo di trasferimento del rischio. Ogni impegno (ivi inclusi derivati e linee di liquidità) accordato a un'operazione di cartolarizzazione dev'essere trattato come esposizione cartolarizzata. La maggior parte di tali impegni è detenuta nel portafoglio bancario prudenziale. Al 31 dicembre 2019 le attività di rischio ponderate di BNPP soggette a questo tipo di rischio ammontavano a 11 miliardi di EUR. (3) *Rischio di controparte* - Il rischio di credito di controparte è la traduzione del rischio di credito intrinseco nelle transazioni finanziarie, negli investimenti e/o nelle operazioni di pagamento tra controparti. Tali transazioni includono contratti bilaterali come contratti derivati over-the-counter ("**OTC**") nonché i contratti sottoscritti attraverso stanze di compensazione. L'importo del rischio può variare nel tempo, in linea con le variazioni dei parametri di mercato che di conseguenza influenzano il reinvestimento dell'importo delle relative transazioni. Il rischio di controparte risiede nella probabilità che la controparte non adempia ai propri obblighi di pagare alla Banca il pieno valore attuale dei flussi relativi a una transazione o a un portafoglio per il quale la Banca è un beneficiario netto; il rischio di controparte è inoltre legato al costo di sostituzione di un derivato o di un portafoglio in caso di inadempimento della controparte. Pertanto può essere considerato un rischio di mercato in caso di inadempimento o un rischio contingente. Al 31 dicembre 2019 le attività di rischio ponderate di BNPP soggette a questo tipo di rischio

Elemento	Titolo	
		ammontavano a 30 miliardi di EUR. (4) *Rischio di mercato* - Il rischio di mercato è il rischio di perdita di mercato a causa delle contrarie tendenze nel mercato dei prezzi o di taluni parametri, siano essi direttamente osservabili o meno. I parametri di mercato osservabili includono, ma non sono limitati a, tassi di cambio, prezzi di titoli e materie prime (sia quotati che ottenuti facendo riferimento a un'attività similare), prezzo dei derivati, e altri parametri che possono essere direttamente desunti da essi, quali tassi di interesse, spread di credito, volatilità e correlazioni implicate o altri parametri similari. I fattori non osservabili sono quelli basati su assunzioni operative, come parametri contenute nei modelli o basati su analisi statistiche o economiche, non accertabili sul mercato. Nel portafoglio di negoziazione a reddito fisso, gli strumenti di credito sono valutati sulla base dei rendimenti obbligazionari e degli spread di credito, che rappresentano i parametri di mercato allo stesso modo dei tassi di interesse o dei tassi di cambio. Il rischio di credito crescente sull'emittente dello strumento di debito è pertanto una componente del rischio di mercato conosciuta come rischio emittente. La liquidità è un'importante componente del rischio di mercato. In momenti di liquidità limitata o assente, gli strumenti o i beni potrebbero non essere negoziabili o potrebbero non essere negoziabili al valore stimato. Tale situazione può peggiorare, ad esempio, a causa di scarsi volumi di negoziazione, restrizioni legali o forte squilibrio tra domanda e offerta per alcune attività. Il rischio di mercato correlato alle attività bancarie comprende i rischi associati al tasso d'interesse e al tasso di cambio derivanti dalle attività di intermediazione bancaria. Al 31 dicembre 2019 le attività di rischio ponderate di BNPP soggette a questo tipo di rischio ammontavano a 19 miliardi di EUR. (5) *Rischio di liquidità* - Il rischio di liquidità è il rischio che BNPP non sia in grado di onorare i propri impegni o smobilizzare o pagare una posizione a causa dello scenario di mercato o di fattori idiosincratici (ossia specifici di BNP Paribas), entro un dato periodo di tempo e a un costo ragionevole. Il rischio di liquidità riflette il rischio che il Gruppo non sia in grado di adempiere i requisiti di liquidità o di garanzia correnti o futuri previsti o imprevisti, in tutti gli orizzonti temporali, dal breve al lungo termine. Questo rischio può derivare dalla riduzione delle fonti di finanziamento, dalla diminuzione degli impegni di finanziamento, da una riduzione della liquidità di alcuni attivi o da un incremento delle richieste di margine di liquidità o di garanzia. Può inoltre essere legato alla stessa BNPP (rischio di reputazione) o a fattori esterni (rischi su alcuni mercati). (6) *Rischio operativo* - Il rischio operativo è il rischio di incorrere in una perdita a causa dell'inadeguatezza o del mancato funzionamento dei processi interni, ovvero a causa di eventi esterni, sia che si tratti di eventi messi in atto in maniera deliberata, accidentali o naturali. La gestione del rischio operativo è basata su un'analisi della catena "causa-evento-effetto". Al 31 dicembre 2019 le attività di rischio ponderate di BNPP soggette a questo tipo di rischio ammontavano a 69 miliardi di EUR. (7) *Rischio di assicurazione* - BNP Paribas Cardif è esposta ai seguenti rischi: - rischio di mercato, rischio di perdita finanziaria derivante da movimenti avversi sui mercati finanziari. I movimenti avversi sono, in particolare,

Elemento	Titolo	
		riflessi nei prezzi (tra cui, a mero titolo esemplificativo, tassi di cambio, prezzi obbligazionari, prezzi azionari e delle materie prime, prezzi dei derivati, prezzi del mercato immobiliare) e derivano da oscillazioni dei tassi di interesse, degli spread di credito, della volatilità e delle correlazioni; - il rischio di credito, rischio di perdita derivante dalle oscillazioni del merito di credito degli emittenti di titoli, delle controparti e di qualsiasi debitore a cui sono esposti gli organismi assicurativi e di riassicurazione. Tra i debitori, i rischi relativi a strumenti finanziari (incluse le banche in cui la Società detiene depositi) e i rischi relativi a crediti generati dalle attività di sottoscrizione (tra cui, a mero titolo esemplificativo, raccolta premi, recupero della riassicurazione) sono distinti in due categorie: "Rischio di credito attività" e "Rischio di credito passività"; - il rischio di sottoscrizione è il rischio di perdita finanziaria causata da un improvviso, inaspettato incremento delle richieste di risarcimento. A seconda del tipo di ramo assicurativo (vita, non vita), il rischio può essere statistico, macroeconomico o andamentale, o può essere correlato ad elementi di salute pubblica o a disastri; e - il rischio operativo è il rischio di perdita derivante da inadeguatezza o interruzione delle procedure interne, guasti IT o eventi esterni intenzionali, di origine accidentale o naturale. Gli eventi esterni citati nella presente definizione includono quelli di origine umana e naturale. Più in generale, i rischi ai quali il Gruppo BNP Paribas è esposto possono derivare da una serie di fattori legati, fra l'altro, all'evoluzione del contesto macroeconomico e regolamentare, o all'attuazione della sua strategia e attività. La prima modifica al documento di registrazione universale del 2019 dell'Emittente definisce sette categorie di rischio specifico delle attività dell'Emittente, nei termini seguenti: **1 Rischio di credito, rischio di controparte e rischio di cartolarizzazione del portafoglio bancario** 1 Un aumento sostanziale dei nuovi accantonamenti o una riduzione nel livello degli accantonamenti precedentemente registrati ed esposti al rischio di credito e al rischio di controparte potrebbero avere un impatto negativo sui risultati operativi e sulla situazione finanziaria della Banca. 2 La solidità e la condotta di altre istituzioni finanziarie e operatori del mercato potrebbero avere un impatto negativo sulla Banca. **2 Rischio Operativo** 1 Le politiche, procedure e modalità di gestione dei rischi della Banca possono esporre la stessa a rischi non identificati o imprevisti, che potrebbero causare perdite significative. 2 L'interruzione o la violazione dei sistemi informatici della Banca potrebbe causare perdite sostanziali di informazioni inerenti ai clienti, danni alla reputazione della Banca e perdite finanziarie. 3 Il rischio reputazionale potrebbe erodere la solidità finanziaria della Banca e far diminuire la fiducia in essa dei clienti e delle controparti. **3 Rischio di Mercato** 1 La Banca potrebbe subire perdite significative sulle sue attività di negoziazione e di investimento a causa di oscillazioni e della volatilità del mercato. 2 La Banca potrebbe generare ricavi inferiori dalle sue commissioni e provvigioni durante periodi di crisi dei mercati.

Elemento	Titolo	
		3 Le rettifiche al valore di carico dei titoli e dei portafogli di derivati della Banca e del suo debito potrebbero ripercuotersi negativamente sull'utile netto e sul patrimonio netto. **4 Rischio di liquidità e di finanziamento** 1 L'accesso della Banca al finanziamento e il costo di finanziamento potrebbero risentire di un ritorno della crisi finanziaria, del peggioramento delle condizioni economiche, di riduzioni dei rating, dell'aumento degli spread sovrani o di altri fattori. 2 Il protrarsi della discesa dei mercati può ridurre la liquidità della Banca, rendendo più difficile vendere attività e conducendo potenzialmente a perdite significative. Di conseguenza, la Banca deve assicurarsi della corretta corrispondenza delle proprie attività e passività al fine di evitare l'esposizione a perdite. 3 Un eventuale declassamento del rating del credito di BNPP potrebbe incidere pesantemente sulla sua redditività. **5 Rischi legati al contestomacroeconomico e di mercato** 1 Condizioni economiche e finanziarie sfavorevoli hanno avuto in passato e potranno avere in futuro un impatto sulla Banca e sui mercati in cui opera. 2 Mutamenti significativi dei tassi d'interesse potrebbero avere un impatto negativo sui ricavi o sulla redditività della Banca. Lo scenario prolungato di tassi di interesse bassi comporta rischi sistemici impliciti, che potrebbero incidere sul reddito o sulla redditività della Banca, e anche qualsiasi superamento di questo scenario comporta rischi. 3 In considerazione della portata globale delle proprie attività, la Banca può essere esposta al rischio in taluni paesi nei quali opera e a rischi politici e macroeconomici o modifiche finanziarie nei paesi e nelle regioni in cui opera. **6 Rischi regolamentari** 1 Leggi e regolamenti adottati negli ultimi anni, soprattutto in risposta alla crisi finanziaria globale oltre che alle nuove proposte legislative, potrebbero avere un impatto significativo sulla Banca e sul contesto finanziario ed economico in cui opera. 2 La Banca può incorrere in pesanti ammende e altre sanzioni amministrative e penali per il mancato adeguamento alle leggi e ai regolamenti applicabili; può inoltre subire perdite derivanti (o non derivanti) da controversie con privati. 3 La Banca potrebbe subire un cambiamento sfavorevole delle circostanze, che la renderebbero oggetto di una procedura di risoluzione: conseguentemente, i portatori di titoli della Banca potrebbero patire perdite. **7 Rischi legati alla crescita della Banca nel contesto attuale** 1 La mancata attuazione del piano strategico di BNPP o il mancato raggiungimento dei suoi obiettivi finanziari pubblicati potrebbe incidere sul prezzo di negoziazione dei suoi titoli; 2 La Banca potrebbe incontrare difficoltà nell'integrare le società acquisite e potrebbe non essere in grado di realizzare i benefici attesi dalle sue acquisizioni. 3 Il contesto attuale della Banca potrebbe essere influenzato dall'intensa competizione fra gli operatori bancari e non bancari, che potrebbe avere un impatto negativo sui ricavi e sulla redditività della Banca. 4 BNPP potrebbe subire perturbazioni dell'attività e perdite dovute a rischi di cambiamento climatico, quali rischi di transizione, rischi fisici o rischi di responsabilità civile;

Elemento	Titolo	
		5 Le variazioni di talune partecipazioni in istituzioni creditizie o finanziarie potrebbero avere un impatto sulla posizione finanziaria della Banca. ***Emittenti*** I rischi principali sono descritti in precedenza relativamente a BNPP rappresentano anche i rischi principali cui è soggetta BNPP B.V., nonché ogni altra singola società o ente del Gruppo BNPP. *Rischio derivante dai legami di dipendenza* BNPP B.V. è una società operativa. Le attività di BNPP B.V. sono costituite dalle passività di altre società del Gruppo BNPP. La capacità di BNPP B.V. di adempiere alle proprie obbligazioni dipende dalla capacità delle altre società del Gruppo di adempiere alle loro obbligazioni. Relativamente ai titoli di sua emissione, la capacità di BNPP B.V. di adempiere alle obbligazioni sorte a fronte di tali titoli dipende dalla ricezione da parte di BNPP B.V. dei pagamenti effettuati ai sensi di alcuni accordi di copertura che sottoscrive con altre società del Gruppo BNPP. Pertanto, i Portatori dei titoli emessi da BNPP B.V., ai sensi della Garanzia emessa da BNPP, saranno esposti alla capacità delle società appartenenti al Gruppo BNP di adempiere alle proprie obbligazioni ai sensi di tali accordi di copertura. *Rischio di Mercato* BNPP B.V. assume esposizione al rischio di mercato derivanti da posizioni in tassi di interesse, tassi di cambio, prodotti azionari e materie prime, i quali sono tutti esposti a movimenti di mercato generali e specifici. Tuttavia, tali rischi sono coperti tramite sottoscrizione di contratti swap e opzioni e pertanto tali rischi sono da ritenersi mitigati, in linea di principio. *Rischio di Credito* BNPP B.V. ha una significativa concentrazione di rischio di credito in quanto tutti i contratti OTC sono acquistati dalla capogruppo e dalle altre società del Gruppo BNPP. In considerazione gli obiettivi e dell'attività di BNPP e la circostanza che la capogruppo è sottoposta alla supervisione della Banca Centrale Europea e della Autorité de Contrôle Prudentiel et de Résolution, tali rischi sono ritenuti accettabili dal management. Al debito senior a lungo termine di BNP Paribas è stato attribuito un rating A+ da Standard & Poor's e di Aa3 da Moody's. *Rischio di Liquidità* L'Emittente ha una significativa esposizione al rischio di liquidità. Al fine di attenuare tale esposizione l'Emittente ha concluso accordi di compensazione (netting agreements) con la capogruppo e altri soggetti appartenenti al Gruppo BNPP.
D.3	Rischi chiave relativi ai Titoli	Oltre ai rischi (ivi incluso il rischio di inadempimento) che possono influenzare la capacità dell'Emittente di adempiere alle obbligazioni assunte relativamente ai Titoli o del Garante di adempiere alle obbligazioni assunte ai sensi della Garanzia, esistono determinati fattori che sono significativi allo scopo di valutare i rischi associati ai Titoli emessi ai sensi del presente Prospetto di Base, ivi inclusi: *Rischio di Mercato* -i Titoli sono obbligazioni non garantite; -i Titoli che operano con leva finanziaria comportano livello di rischio più alto e in caso di perdite su tali Titoli, tali perdite possono essere più elevate rispetto a quelle riportate su un titolo simile che non è oggetto di leva; -il prezzo di negoziazione dei Titoli è influenzato da vari fattori tra cui, a mero titolo esemplificativo (in relazione ai Titoli legati a un Sottostante di Riferimento), il prezzo

Elemento	Titolo	
		del/i relativo/i Sottostante/i di Riferimento, il tempo restante alla scadenza o al rimborso e la volatilità, e tali fattori implicano che il prezzo di negoziazione dei Titoli può essere inferiore all'Importo del Rimborso Finale o all'Importo del Regolamento in Contanti o al valore del Diritto Spettante; -l'esposizione al Sottostante di Riferimento in molti casi sarà ottenuta tramite la stipula da parte dell'Emittente di accordi di copertura e, in relazione ai Titoli legati a un Sottostante di Riferimento, i potenziali investitori sono esposti all'andamento di questi accordi di copertura e ad eventi che possono avere un effetto sugli accordi di copertura e, di conseguenza, il verificarsi di uno di questi eventi può avere un effetto sul valore dei Titoli; *Rischi legati ai Portatori dei Titoli* -le disposizioni sulle assemblee dei Portatori consentono a maggioranze definite di vincolare tutti i Portatori; -In alcune circostanze i Portatori potrebbero perdere l'intero valore del loro investimento. *Rischi legati all'Emittente/Garante* -una riduzione dell'eventuale rating assegnato a titoli di debito in essere dell'Emittente o Garante (se applicabile) da parte di un'agenzia di rating potrebbe causare una riduzione del valore di negoziazione dei Titoli; -potrebbero sorgere conflitti di interessi (si veda l'Elemento E.4 che segue); *Rischi Legali* -il verificarsi di un ulteriore evento di turbativa o di un evento di turbativa ulteriore opzionale può portare a una rettifica dei Titoli, il rimborso anticipato può avere come conseguenza una differenza tra l'importo pagabile al momento del rimborso programmato e l'importo che si prevede sia pagato al momento del rimborso programmato e, di conseguenza, il verificarsi di un evento di turbativa ulteriore e/o di un evento di turbativa ulteriore opzionale può avere un effetto pregiudizievole sul valore o sulla liquidità dei Titoli; -i Titoli possono maturare spese e oneri fiscali; -i Titoli potrebbero essere liquidati nel caso di illegalità o impossibilità, e tale annullamento o liquidazione potrebbe avere come conseguenza il fatto che un investitore non realizzi un ritorno su un investimento nei Titoli; -una decisione giudiziaria o un mutamento di una prassi amministrativa o una modifica della legge inglese o francese, a seconda dei casi, successivi alla data del Prospetto di Base potrebbero avere un impatto sostanzialmente pregiudizievole sul valore dei Titoli da essi influenzati; *Rischi legati al Mercato Secondario* -l'unico mezzo attraverso il quale un Portatore può realizzare valore dal Titolo prima della sua Data di Rimborso consiste nella sua vendita al prezzo di mercato in vigore al momento dell'operazione in un mercato secondario disponibile, fermo restando che potrebbe non esistere alcun mercato secondario per i Titoli (il che potrebbe significare, per un investitore, dover attendere di esercitare il rimborso dei Titoli, al fine di realizzare un valore superiore rispetto al valore di scambio); -BNP Paribas Arbitrage S.N.C. è tenuta ad agire in veste di market-maker. In tali circostanze, BNP Paribas Arbitrage S.N.C. si adopererà al fine di mantenere un mercato secondario per l'intera durata in vita dei Titoli, in base alle normali condizioni di mercato, e proporrà al mercato prezzi di domanda e offerta. Lo scarto fra i prezzi di domanda e di offerta può variare durante la vita dei Titoli. Tuttavia, durante alcuni

		periodi, può risultare difficile, impraticabile o impossibile per BNP Paribas Arbitrage S.N.C. quotare prezzi di domanda e di offerta, e durante tali periodi può risultare difficile, impraticabile o impossibile acquistare o venderei questi Titoli. Ciò può dipendere, per esempio, da condizioni di mercato sfavorevoli, prezzi volatili o importanti fluttuazioni dei prezzi, la chiusura o la limitazione di una piazza importante o il verificarsi al suo interno di problemi tecnici quali un malfunzionamento dei sistemi informativi o un'interruzione della rete. *Rischi relativi ai Sottostanti di Riferimento* -Inoltre, esistono rischi specifici in relazione ai Titoli che sono legati a un Sottostante di Riferimento (inclusi Titoli Ibridi) e un investimento in tali Titoli comporterà rischi significativi non associati a un investimento in un titolo di debito tradizionale. I fattori di rischio relativi ai Titoli Legati a un Sottostante di Riferimento includono: -esposizione a una o più azioni (comprese le azioni collegate fra loro che vengono scambiate come una singola quota ("**Azioni Accoppiate**")), rischi di mercato simili a quelli di un investimento diretto in un'azione, certificati di deposito globale (global depositary receipt, "**GDR**") o certificati di deposito americani (American depositary receipt "**ADR**"), eventi di rettifica potenziali o eventi straordinari aventi un effetto sulle azioni e turbative di mercato o la mancata apertura di una Borsa, che potrebbero avere un effetto negativo sul valore e sulla liquidità dei Titoli e che l'Emittente non fornisce informazioni post-emissione in relazione al Sottostante di Riferimento. *Rischi relativi ad alcune specifiche tipologie di prodotti* I seguenti rischi sono associati a prodotti ETS: Prodotti a leva fissa Gli investitori possono essere esposti a una perdita parziale o totale dell'investimento. Il rendimento dei Titoli dipende dalla performance del/i Sottostante/i di Riferimento e dall'applicazione delle clausole di Estinzione Anticipata Automatica. Inoltre, il rendimento può dipendere da altri fattori di mercato come i tassi di interesse, la volatilità implicita del/i Sottostante/i di Riferimento e il tempo residuo prima della scadenza. L'effetto della leva finanziaria sui Titoli può avere un effetto positivo o negativo.
D.6	Avvertenza relativa ai rischi	Si veda l'Elemento D.3 che precede. Nel caso di insolvenza di un Emittente o qualora lo stesso non sia altrimenti in grado di, o disposto a, rimborsare i Titoli alla scadenza, un investitore potrebbe perdere tutto o parte del suo investimento nei Titoli. Qualora il Garante non sia in grado di, o non sia disposto a, adempiere le proprie obbligazioni ai sensi della Garanzia dovute alla scadenza, un investitore potrebbe perdere tutto o parte del suo investimento nei Titoli. Inoltre, gli investitori potrebbero perdere tutto o parte del loro investimento nei Titoli in conseguenza dei termini e condizioni dei Titoli stessi.

Section E - Offerta

Elemento	Titolo	
E.2b	Ragioni dell'offerta e utilizzo dei proventi	I proventi netti dell'emissione dei Titoli andranno a far parte dei fondi generali dell'Emittente. Tali proventi potranno essere utilizzati per mantenere posizioni in contratti di opzioni o di *future* o altri strumenti di copertura
E.3	Termini e condizioni dell'offerta	Il prezzo di emissione dei Titoli è come indicato in C.20. L'Emittente intende diffondere annunci pubblicitari in Italia relativamente ai Titoli e all'ammissione alla negoziazione dei Titoli sul SeDeX MTF, ciò potrebbe essere qualificato come un'offerta al pubblico dei Titoli in Italia, ai sensi della normativa
