Credit Terms

Reference Entity	MEDIOBANCA BANCA DI CREDITO FINANZIARIO SOCIETA PER AZIONI	Event Determination Date	The date on which the CDDC is asked to determine whether the relevant Credit Event has occurred or, the date on which the product Calculation Agent notifies the Issuer that a Credit Event has occurred.
CDDC	A Credit Derivatives Determinations Committee established by ISDA (or any successor thereto), further information on the committee, its members and its rules is available at the following website: http://dc.isda.org/	ISDA	"International Swaps and Derivatives Association", a private trade organisation consisting of financial institutions and other derivatives market participants.
Credit Observation Period End Date	20 December 2023	Credit Event Backstop Date	The date that is 60 calendar days prior to the Trade Date.
Recovery Rate	A percentage, determined in respect of one or more obligations of the Reference Entity, in an auction procedure organised by the CDDC after determination of a Credit Event (or if an auction does not happen, by the Calculation Agent seeking dealer quotations to determine the price of selected obligations of the Reference Entity that will be used as Recovery Rate).		

The Securities will be redeemed on the Redemption Date by a payment in cash in respect of each Certificate equal to the Notional Amount provided that no Event Determination Date has occurred with respect to the Reference Entity. The occurrence of an Event Determination Date will be determined by the CDDC or by BNP Paribas as Calculation Agent, following the occurrence of any one of the following events (each a "Credit Event"):

- **Bankruptcy:** the Reference Entity experiences bankruptcy or liquidation or insolvency or related events.
- **Failure to Pay:** the Reference Entity fails to make payments to creditors due on its debt at all or in good time.
- **Restructuring:** the Reference Entity's debt is restructured on terms that are detrimental to the holder(s) of the relevant debt in a form that is binding on all holder(s).

Only Credit Events occurring between the Credit Event Backstop Date and the Credit Observation Period End Date (or a later date in some circumstances) shall affect the product (earlier or later Credit Events shall not be taken into account). If a Credit Event occurs with respect to the Reference Entity, the product will be redeemed on the Redemption Date following a Credit Event (as defined above) following the determination of the Recovery Rate (as described above). The investor will suffer a loss of up to 100% of the Notional Amount per certificate, as he will only receive the Recovery Rate x Notional Amount per certificate as the Redemption Amount (instead of 100% of the Notional Amount per certificate in the absence of a Credit Event). The return (if any) an investor in the Securities receives on such early termination is likely to be different depending on the scenarios described above and may be less than the amount invested (including a possible reduction to zero).

In the event that the Reference Entity transfers all or a portion of its obligations to one or more other entities, those entities may be determined to be successors to the Reference Entity and such successor entity (or entities) may replace the Reference Entity (a "Succession Event"). Following such succession an investor will take credit risk on the relevant successor(s) instead of the Reference Entity specified above.

Most material risk factors pertaining to the guarantor

1. A substantial increase in new provisions or a shortfall in the level of previously recorded provisions exposed to credit risk and counterparty risk could adversely affect the BNP Paribas Group's results of operations and financial condition
2. The BNP Paribas Group's risk management policies, procedures and methods may leave it exposed to unidentified or unanticipated risks, which could lead to material losses
3. The BNP Paribas Group may incur significant losses on its trading and investment activities due to market fluctuations and volatility
4. Adjustments to the carrying value of the BNP Paribas Group's securities and derivatives portfolios and the BNP Paribas Group's own debt could have an adverse effect on its net income and shareholders' equity
5. Adverse economic and financial conditions have in the past had and may in the future have an impact on the BNP Paribas Group and the markets in which it operates
6. Laws and regulations adopted in recent years, particularly in response to the global financial crisis, as well as new legislative proposals, may materially impact the BNP Paribas Group and the financial and economic environment in which it operates
7. Epidemics and pandemics, including the ongoing coronavirus (COVID-19) pandemic and their economic consequences may adversely affect the Group's business, operations, results and financial condition

What are the key risks that are specific to the securities?

Most material risk factors specific to the securities

There are also risks associated with the Securities, including:

1. Risks related to the structure of the securities:

The return on the Securities depends on the credit of the Reference Entity, and the capital protection applies only at maturity and only if the Securities have not been redeemed in accordance with the Credit Terms

2. Risks related to the Reference Entity:

Investors will be exposed to the credit risk of one or more the Reference Entities (being, in general terms, the risk that a given such entity does not perform its financial obligations when due or becomes insolvent), which exposure may be to the full extent of their investment in such Credit Securities. If a Credit Event occurs, investors may suffer significant losses.

3. Correlated Credit Risks:

In purchasing the Securities, investors assume credit exposure to both the Reference Entity or and the Issuer and the Guarantor. The credit risk to investors may further be increased if the Reference Entity is concentrated in the same industry sector or geographic area as the Issuer or the Guarantor.

4. Actions of the Reference Entities may affect the value of the Credit Securities:

Actions of the Reference Entities (for example, merger or demerger or the repayment or transfer of indebtedness) may adversely affect the value of the Credit Securities. Holders of the Credit Securities Investors should be aware that the Reference Entity to which the value of the Credit Securities is exposed, and the terms of such exposure, may change over the term of the Credit Securities.

5. Suspension of Obligations will suspend payment of principal and interest:

In certain circumstances (for example, where a Credit Event has occurred and the related credit loss has not been determined as at the relevant date for payment, or, if applicable, where a potential Credit Event exists as at the scheduled maturity of the Securities), investors may be adversely affected where payment of the redemption amount on the Securities is deferred for a material period in whole or part without compensation to investors.

6. Risks related to the trading markets of the securities:

The trading price of the Securities may be affected by a number of factors including, but not limited to, the relevant price, value or level of the Reference Entity, the time remaining until the scheduled redemption date of the Securities, the actual or implied volatility associated with the Reference Entity, and the correlation risk of the Reference Entity. The possibility that the value and trading price of the Securities will fluctuate (either positively or negatively) depends on a number of factors, which investors should consider carefully before purchasing or selling Securities.

Entità di Riferimento	MEDIOBANCA BANCA DI CREDITO FINANZIARIO SOCIETA PER AZIONI	Data di Determinazione dell'Evento	La data in cui viene richiesto al CDDC di determinare se il relativo Evento di Credito si sia verificato o, la data in cui l'Agente per il Calcolo notifica all'Emittente che un Evento di Credito si è verificato.

Data di Fine del Periodo di Osservazione del Credito	20 dicembre 2027	Data Backstop dell'Evento di Credito	Il 60° giorno di calendario che precede la Data di Trade
Tasso di Riscatto	Una percentuale, determinata con riferimento ad una o più obbligazioni dell'Entità di Riferimento, in una procedura d'asta organizzata dal CDDC a seguito della determinazione di un Evento di Credito (o se un'asta non si verifica, dall'Agente per il Calcolo che cerchi quotazioni per determinare il prezzo di obbligazioni selezionate dell'Entità di Riferimento che saranno usate come Tasso di Riscatto).		

I Titoli saranno rimborsati alla Data di Liquidazione con un pagamento in contanti per ogni Certificato pari all'Importo Nozionale a condizione che non si sia verificata alcuna Data di Determinazione dell'Evento rispetto all'Entità di Riferimento. Il verificarsi di una Data di Determinazione dell'Evento sarà determinato dal CDDC o da BNP Paribas in qualità di Agente per il Calcolo, a seguito del verificarsi di uno qualsiasi dei seguenti eventi (ciascuno un "Evento di Credito"):

- Fallimento: l'Entità di Riferimento subisce il fallimento o la liquidazione o l'insolvenza o eventi correlati.
- Inadempienza nei pagamenti: l'Entità di riferimento non riesce ad effettuare i pagamenti ai creditori dovuti sul suo debito in tutto o in parte o in tempo utile.
- Ristrutturazione: il debito dell'Entità di Riferimento è ristrutturato a condizioni pregiudizievoli per il detentore o i detentori del debito in questione in una forma vincolante per tutti i detentori.

Solo Eventi di Credito che si verifichino tra la Data Backstop dell'Evento di Credito e la Data di Fine del Periodo di Osservazione del Credito (o una data successiva in talune circostanze) potranno sortire effetti sul prodotto (Eventi di Credito anteriori o successivi non dovranno essere presi in considerazione).

Se si verifica un Evento di Credito rispetto all'Entità di Riferimento, il prodotto sarà rimborsato alla Data di Liquidazione dopo un Evento di Credito (come definito sopra) a seguito della determinazione del Tasso di Riscatto (come descritto sopra). L'investitore subirà una perdita fino al 100% dell'Importo Nozionale per certificato, in quanto riceverà solo il Tasso di Riscatto x Importo Nozionale per certificato come Importo di Rimborso (invece del 100% dell'Importo Nozionale per certificato in assenza di un Evento di Credito). L'eventuale rendimento che un investitore dei Titoli riceve in seguito a tale risoluzione anticipata è probabilmente diverso a seconda degli scenari sopra descritti e può essere inferiore all'importo investito (inclusa un'eventuale riduzione a zero).

Nel caso in cui l'Entità di Riferimento trasferisca tutte o parte delle sue obbligazioni a una o più altre entità, tali entità possono essere considerate successori dell'Entità di Riferimento e tale (o tali) entità può sostituire l'Entità di Riferimento (un "Evento di Successione"). A seguito di tale successione, l'investitore si assumerà il rischio di credito sul o sui successori in questione al posto dell'Entità di Riferimento sopra indicata.

Dove saranno negoziati i titoli?

Ammissione alla negoziazione

L'Emittente (o altri per suo conto) presenterà domanda per l'ammissione alla negoziazione dei Titoli su EuroTLX.

Ai titoli è connessa una garanzia?

Natura e della portata della garanzia

Le obbligazioni in conformità con la garanzia sono obbligazioni senior privilegiate (ai sensi dell'Articolo L.613-30-3-I-3° del Code monétaire et financier francese) e non garantite di BNPP e avranno pari priorità rispetto a ogni altra obbligazione non subordinata e non garantita presente e futura, fatte salve le eccezioni di volta in volta rese obbligatorie ai sensi del diritto francese.

Nell'eventualità di un bail-in di BNPP ma non di BNPP B.V., le obbligazioni e/o gli importi dovuti da BNPP ai sensi della garanzia saranno ridotti per riflettere tale eventuale modifica o riduzione applicata alle responsabilità di BNPP e derivante dall'applicazione di una misura di bail-in di BNPP da parte di un organismo di vigilanza incaricato (anche nel caso in cui la garanzia non sia soggetta al bail-in).

Il Garante garantisce incondizionatamente e irrevocabilmente a ciascun Titolare che, se per qualsiasi motivo BNPP B.V. non dovesse corrispondere somme dovute o non dovesse adempiere ad altre obbligazioni in relazione a qualsiasi Titolo alla data specificata per tale pagamento o obbligazione, il Garante, in conformità alle Condizioni, pagherà tale somma nella valuta in cui tale pagamento è dovuto in fondi immediatamente disponibili o, a seconda dei casi, eseguirà o farà adempiere al relativo obbligo nella data dovuta.

Quali sono i principali rischi specifici dei titoli?

Fattori di rischio più significativi specifici dei titoli

Esistono anche rischi relativi ai Titoli, compresi:

1. Rischio relativo alla struttura dei Titoli:

Il rendimento dei Titoli dipende dal credito dell'Entità di Riferimento, e la protezione del capitale si applica solamente alla scadenza e solo se i Titoli non sono stati rimborsati in conformità con i Termini del Credito.

2. Rischi connessi all'Entità di Riferimento:

Gli investitori saranno esposti al rischio di credito di una o più Entità di Riferimento (ovvero, in termini generali, il rischio che una data entità di tale tipo non adempia alle proprie obbligazioni finanziarie alla scadenza o diventi insolvente), esposizione che può essere pari all'intero ammontare del loro investimento in tali Titoli di Credito. Se si verifica un Evento di Credito, gli investitori potranno subire perdite significative.

3. Rischi di credito correlati

Nell'acquistare i Titoli, gli investitori assumono un'esposizione creditizia sia verso l'Entità di Riferimento che verso l'Emittente e il Garante. Il rischio di credito per gli investitori può essere ulteriormente aumentato se l'Entità di Riferimento è concentrata nello stesso settore industriale o nella stessa area geografica dell'Emittente o del Garante.

4. Le azioni delle Entità di Riferimento possono influenzare il valore dei Titoli di Credito

Le azioni delle Entità di Riferimento (ad esempio, la fusione o la scissione o il rimborso o il trasferimento del debito) possono influire negativamente sul valore dei Titoli di Credito. Gli investitori devono essere consapevoli che l'Entità di Riferimento a cui è esposto il valore dei Titoli di Credito, e le condizioni di tale esposizione, possono cambiare nel corso della durata dei Titoli di Credito.

5. La sospensione degli obblighi sospenderà il pagamento del capitale e degli interessi:

In determinate circostanze (ad esempio, quando si è verificato un Evento di Credito e la relativa perdita di credito non è stata determinata alla data rilevante per il pagamento, o, se applicabile, quando un potenziale Evento di Credito esiste alla scadenza prevista dei Titoli), gli investitori possono essere influenzati negativamente qualora il pagamento dell'importo del rimborso sui Titoli sia differito per un periodo rilevante in tutto o in parte senza compensazione agli.

6. Rischi relativi ai mercati di negoziazione dei Titoli:

Il Prezzo di negoziazione dei Titoli può essere influenzato da una serie di fattori tra cui, a titolo esemplificativo ma non esaustivo, il prezzo, il valore o il livello dell'Entità di Riferimento, il tempo rimanente fino alla data di liquidazione/rimborso dei Titoli, la volatilità implicita o realizzata associata all'Entità di Riferimento e il

rischio di correlazione dell'Entità di Riferimento. La possibilità che il prezzo di negoziazione del Titolo fluttui (positivamente o negativamente) dipende da una serie di fattori che gli investitori dovranno considerare attentamente prima di acquistare o vendere i Titoli.
