The Base Prospectus received approval no. 23-197 on 31 May 2023

Any person making or intending to make an offer of the Securities may only do so in circumstances in which no obligation arises for the Issuer, the Guarantor or any Manager to publish a prospectus pursuant to either of Article 3 of the Prospectus Regulation or Section 85 of the FSMA or to supplement a prospectus pursuant to Article 23 of the Prospectus Regulation, in each case, in relation to such offer.

None of the Issuer, the Guarantor or any Manager has authorised, nor do they authorise, the making of any offer of Securities in any other circumstances.

PART A – CONTRACTUAL TERMS

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions set forth in the Base Prospectus dated 31 May 2023, each Supplement to the Base Prospectus published and approved on or before the date of these Final Terms (copies of which are available as described below) and any other Supplement to the Base Prospectus which may have been published and approved before the issue of any additional amount of Securities (the "**Supplements**") (provided that to the extent any such Supplement (i) is published and approved after the date of these Final Terms and (ii) provides for any change to the Conditions of the Securities such changes shall have no effect with respect to the Conditions of the Securities to which these Final Terms relate) which together constitutes a base prospectus for the purposes of Regulation (EU) 2017/1129 (the "**Prospectus Regulation**") (the "**Base Prospectus**"). This document constitutes the Final Terms of the Securities described herein for the purposes of the Prospectus Regulation and must be read in conjunction with the Base Prospectus to obtain all the relevant information. Rights attached to the securities

Negative pledge - The terms of the Securities will not contain a negative pledge provision.

Events of Default - The terms of the Securities will not contain events of default.

Governing law - The Securities are governed by English law.

The objective of this product is to provide you with a periodic coupon in accordance with the Coupon provisions below in exchange for a risk on both the Notional Amount and the Coupon.

This product is "0% recovery" meaning that the investor will suffer a loss of 100% of the Notional Amount if a Credit Event occurs with respect to the Reference Entities. In exchange for not receiving the effective Recovery Rate in respect of all the Reference Entities following a Credit Event (which is the case where the product is not "0% recovery"), the investor is entitled to a higher Coupon Rate.

The events constituting Credit Events are summarised below:

- **Bankruptcy:** the Reference Entity experiences bankruptcy or liquidation or insolvency or related events.
- **Failure to Pay:** the Reference Entity fails to make payments to creditors due on its debt at all or in good time.
- **Restructuring:** the Reference Entity's debt is restructured on terms that are detrimental to the holder(s) of the relevant debt in a form that is binding on all holder(s).

Whether or not a Credit Event has occurred will be determined by a committee named CDDC, or, in the absence a CDDC determination, by the product calculation agent. Only Credit Events occurring between the Credit Event Backstop Date and the Redemption Valuation Date shall affect the product (earlier or later Credit Events shall not be taken into account).

Reduction of the Current Notional Amount per certificate following the occurrence of a Credit Event on a Reference Entity: If a Credit Event occurs in respect of one or more of the Reference Entities of the product, the Current Notional Amount per certificate shall be reduced, according to the formula further described below in the definition of Notional Amount per certificate without payment of the Recovery Rate in respect of the relevant Reference Entity to the investor. Such reduction shall be effective from the immediately prior Coupon Payment Date or the Issue Date (as the case may be). As a consequence, the Coupon will also be reduced (as described further under "Coupon" below) and the investor will be exposed to a loss in principal of the product as the amount the investor will receive upon a redemption of the product will be reduced (as described further under "Redemption on the Redemption Date" below).

Redemption on the Redemption Date: On the Redemption Date you will receive in respect of each certificate, in addition to any final payment of coupon, 100.0% of the Current Notional Amount per certificate. In the event of a reduction of the Current Notional Amount per certificate as a result of a Credit Event or Credit Events having occurred in respect of any of the Reference Entities, you will suffer a loss corresponding to the difference between the Notional Amount and the Current Notional Amount per certificate.

Redemption following a Credit Event reducing the Current Notional Amount per certificate to zero: If a Credit Event occurs with respect to each Reference Entity of the product, the outstanding Current Notional Amount will be reduced to zero and, the product will redeem early and in full at a Current Notional Amount per certificate of zero on the Redemption Date following a Credit Event (as defined below) following the determination of the Recovery Rate (as described further below). No regard shall be given to any auction final price determined by the CDDC with respect to the relevant Reference Entity in respect of which a Credit Event has occurred. In such case, the investor will suffer a loss of 100% of the Notional Amount per certificate. The product will terminate following the occurrence of an Event Determination Date in respect of the last occurring Credit Event in respect of the Reference Entities.

Coupon: A coupon is due for payment at the relevant Fixed Coupon Rate on each Fixed Coupon Payment Date for a given period of time. The amount of coupon to be paid should be multiplied by the daily average Current Notional Amount per certificate over the relevant coupon period.

Following the occurrence of a Credit Event in respect of a Reference Entity, the coupon payable will be reduced due to the reduction of the Current Notional Amount per certificate. In case the Current Notional Amount per certificate is zero, no more coupon shall be payable from the Interest Payment Date.

Where:

- CDDC is a Credit Derivatives Determinations Committee established by the International Swaps and Derivatives Association, Inc. (ISDA) (or any successor thereto), further information on the committee, its members and its rules is available at the following website: <http://dc.isda.org/>.
- The Event Determination Date is the date on which the CDDC is asked to determine whether the relevant Credit Event has occurred or, the date on which the product calculation agent notifies the Issuer that a Credit Event has occurred.
- The Current Notional Amount per certificate is the Notional Amount per certificate reduced by 11.11% for each Credit Event after 9 events have already taken place, provided it is greater than 0 (subject to rounding of index weights). In mathematical terms, this is represented as :

$$\text{EUR5,000} * \max[0\%; \min[100\%; \frac{24\% - \sum_{i=1}^N \text{Weight}_i * (1 - \text{RecoveryRate}_i)}{24\% - 12\%}]]$$

- The date falling 3 business days after the determination of the Recovery Rate in respect to the Event Determination Date that leads to a reduction of the Current Notional Amount per certificate to zero.
- The Recovery Rate is a percentage fixed at 0%.
- The Fixed Coupon Rate is the relevant Fixed Rate on the relevant Fixed Coupon Payment Date (per annum on a 30/360 basis of the Notional Amount).

Reference Entity	Weights	RED Code	Annex
ITRAXX EUROPE CROSSOVER SERIES 40 VERSION 1	The Reference Entity Weight, as defined in the index annex, divided by the sum of all Reference Entity Weightings in the Index Annex.	21667KKS6	www.markit.com/Documentation/Product/Itraxx/

The product terms provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the Issuer of the product may terminate the product early. These events are specified in the product terms and principally relate to the Reference Entities, the product characteristics and the Issuer of the product. The return (if any) you receive on such early termination is likely to be different depending on the scenarios described above and may be less than the amount you invested (including a possible reduction to zero).

The product terms also allow the Issuer of the product to extend the Redemption Date in certain circumstances to establish whether or not a Credit Event has occurred. In these circumstances, redemption of the product may be delayed in case of a Credit Event in order for Recovery Rate to be determined. The redemption of the product may also be delayed in case of a Credit Event in order for a Recovery Rate to be determined. This delay should be limited to 1 month in most cases but is not limited in time.

In the event that a Reference Entity transfers all or a portion of its obligations to one or more other entities, those entities may be determined to be successors to the Reference Entity and such successor entity (or entities) may replace the Reference Entity. Following such succession an investor will take credit risk on the relevant successor(s) instead of the Reference Entity specified above. In the event that an entity is split into two (or N) new entities following a succession event, each with a Weight corresponding to half (or 1/N) of the initial entity's Weight, a Credit Event in respect of any of such new entities shall constitute half (or 1/N) of a Credit Event.

Similarity in the event of a merger of two (or N) entities within the index into a single entity, a Credit Event in respect of such a merged entity shall constitute two (or N) Credit Events.

All redemptions described in this document (including potential gains) are calculated on the basis of the Notional Amount, excluding costs, social contributions and taxation applicable to this type of investment.

Meetings - The terms of the Securities will contain provisions for calling meetings of holders of such Securities to consider matters affecting their interests generally. These provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.

Representative of holders - No representative of the Holders has been appointed by the Issuer.

Is there a guarantee attached to the securities?

Nature and scope of the guarantee

The obligations under the guarantee are senior preferred obligations (within the meaning of Article L.613-30-3-I-3° of the French Code monétaire et financier) and unsecured obligations of BNPP and will rank *pari passu* with all its other present and future senior preferred and unsecured obligations subject to such exceptions as may from time to time be mandatory under French law.

In the event of a bail-in of BNPP but not BNPP B.V., the obligations and/or amounts owed by BNPP under the guarantee shall be reduced to reflect any such modification or reduction applied to liabilities of BNPP resulting from the application of a bail-in of BNPP by any relevant regulator (including in a situation where the Guarantee itself is not the subject of such bail-in).

The Guarantor unconditionally and irrevocably guarantees to each Holder that, if for any reason BNPP B.V. does not pay any sum payable by it or perform any other obligation in respect of any Securities on the date specified for such payment or performance the Guarantor will, in accordance with the Conditions pay that sum in the currency in which such payment is due in immediately available funds or, as the case may be, perform or procure the performance of the relevant obligation on the due date for such performance.

Description of the guarantor

The Securities will be unconditionally and irrevocably guaranteed by BNP Paribas ("BNPP" or the "Guarantor") pursuant to an English law deed of guarantee executed by BNPP on 31 May 2023 (the "Guarantee").

Most material risk factors pertaining to the guarantor

1. A substantial increase in new provisions or a shortfall in the level of previously recorded provisions exposed to credit risk and counterparty risk could adversely affect the BNP Paribas Group's results of operations and financial condition.
2. The BNP Paribas Group's risk management policies, procedures and methods may leave it exposed to unidentified or unanticipated risks, which could lead to material losses.
3. The BNP Paribas Group may incur significant losses on its trading and investment activities due to market fluctuations and volatility.
4. The BNP Paribas Group's access to and cost of funding could be adversely affected by a resurgence of financial crises, worsening economic conditions, rating downgrades, increases in sovereign credit spreads or other factors.
5. Adverse economic and financial conditions have in the past had and may in the future have an impact on the BNP Paribas Group and the markets in which it operates.
6. Laws and regulations adopted in recent years, as well as current and future legislative and regulatory developments, may significantly impact the BNP Paribas Group and the financial and economic environment in which it operates.
7. Should the BNP Paribas Group fail to implement its strategic objectives or to achieve its published financial objectives, or should its results not follow stated expected trends, the trading price of its securities could be adversely affected

What are the key risks that are specific to the securities?

Most material risk factors specific to the securities

There are also risks associated with the Securities, including:

1. Risks related to the structure of the securities:

The return on the Securities depends on the credit of the Reference Entities, and the capital protection applies only at maturity and only if the Securities have not been redeemed in accordance with the Credit Terms

2. Risks related to the Reference Entity:

Investors will be exposed to the credit risk of one or more the Reference Entities (being, in general terms, the risk that a given such entity does not perform its financial obligations when due or becomes insolvent), which exposure may be to the full extent of their investment in such Credit Securities. If a Credit Event occurs, investors may suffer significant losses.

3. Correlated Credit Risks:

In purchasing the Securities, investors assume credit exposure to both the Reference Entities and the Issuer and the Guarantor. The credit risk to investors may further be increased if the Reference Entity is concentrated in the same industry sector or geographic area as the Issuer or the Guarantor.

4. Actions of the Reference Entities may affect the value of the Credit Securities:

Actions of the Reference Entities (for example, merger or demerger or the repayment or transfer of indebtedness) may adversely affect the value of the Credit Securities. Holders of the Credit Securities Investors should be aware that the Reference Entity to which the value of the Credit Securities is exposed, and the terms of such exposure, may change over the term of the Credit Securities.

5. Suspension of Obligations will suspend payment of principal and interest:

In certain circumstances (for example, where a Credit Event has occurred and the related credit loss has not been determined as at the relevant date for payment, or, if applicable, where a potential Credit Event exists as at the scheduled maturity of the Securities), investors may be adversely affected where payment of the redemption amount on the Securities is deferred for a material period in whole or part without compensation to investors.

6. Risks related to the trading markets of the securities:

The trading price of the Securities may be affected by a number of factors including, but not limited to, the relevant price, value or level of the Reference Entity, the time remaining until the scheduled redemption date of the Securities, the actual or implied volatility associated with the Reference Entity, and the correlation risk of the Reference Entity. The possibility that the value and trading price of the Securities will fluctuate (either positively or negatively) depends on a number of factors, which investors should consider carefully before purchasing or selling Securities.
